It is of record(Exhibit A) that applicant from October 1, 1935 to October 31, 1936 expended for the construction of additions

and betterments to its properties the sum of \$317,113.05 and that during the same period it made retirements of \$133,577.91. The additions and betterments are said to include the installation of 81,600 feet of distribution mains; one 250,000 gallon elevated steel tank, 140 feet to the top; one new filter unit of one-half million gallons daily capacity; one 18-inch gravel envelope well 400 feet deep, one 16-inch well 277 feet deep, and one 16-inch well 1,585 feet deep; five deep well turbine pumps and motors complete; five horizontal centrifugal booster pumps and motors complete, and four new pump houses.

Applicant reports that the additions and betterments have been paid through the use of corporate funds. It occurs to us that if applicant issues the \$175,000. of stock it should use the proceeds realized from the issue and sale of such stock to pay current indebtedness including notes and accounts payable, to American States Public Service Company, excepting of course the indebtedness to be paid through the issue of the aforesaid \$3,400,000. of bonds.

## ORDER

Southern California Water Company having asked permission to issue \$175,000. par value of its common capital stock, the Commission having considered applicant's request and being of the opinion that this is not a matter in which a public hearing is necessary, that the money, property or labor to be procured or paid for through the issue of said stock is reasonably required for the purposes herein stated and that the expenditures for such purposes are not in whole or in part reasonably chargeable to operating expenses or to income, therefore.

IT IS HEREBY ORDERED that Southern California Water Company be, and it is hereby, authorized to issue and sell for cash at not less than par value, on or before February 28, 1937, \$175,000. par value of its common capital stock for the purpose of reimbursing

its treasury because of funds expended for additions and betterments, from October 1, 1935 to October 31, 1936.

IT IS HEREBY FURTHER ORDERED that Southern California Water Company shall use the proceeds realized from the sale of said \$175,000. par value of stock, to pay current indebtedness, including notes and accounts payable to American States Public Service Company, exclusive of any indebtedness payable through the issue of the aforesaid \$3,400,000. of bonds.

IT IS HEREBY FURTHER ORDERED that the authority herein granted will become effective upon the date hereof, and that applicant shall keep such record of the issue of the stock herein authorized and of the disposition of the proceeds as will enable it to file a report or reports, as required by the Railroad Commission's General Order No. 24-A, which order insofar as applicable, is made a part of this order.

DATED at San Francisco, California, this ______day of January, 1937.

Commissioners.
