The Atchison, Topeka and Santa Fe Railway Company on May 7, 1937, filed its supplemental application asking that the terms of the transfer, sale and conveyance of certain real property to the People of the State of California, on relation of the Department of Public Works, as authorized in Decision No. 27280, dated August 13th, 1934, be modified in accordance with the terms of a supplemental agreement dated March 23rd, 1937, between said parties, a copy of which is attached to and made a part of the supplemental application.

Said Department of Public Works has constructed a portion of the San Francisco-Oakland Bay Bridge over said property located between Spear and Main Streets, and north of Bryant Street, in the City and County of San Francisco.

Said supplemental agreement dated March 23rd, 1937, incorporates certain additional and further restrictions with respect to said property, rights of way, easements and air rights.

It appears that this is not a matter in which a public hearing is necessary, and that said supplemental agreement
