Case No. 4012

BY THE COMMISSION:

SECOND SUPPLEMENTAL OPINION AND ORDER

By Decision No. 29778 of May 24, 1937, and as amended, in the above entitled proceedings, the Commission defined the operative rights of Bay Transport Company, among others, for the transportation of property on the inland waters. It now appears that through inadvertence said decision failed to grant said respondent a right to transport refinery supplies from Crockett to San Francisco. Therefore, good cause appearing,

IT IS HEREBY ORDERED that Appendix A of Decision No. 29778, as amended, be further amended by substituting the following paragraph for the paragraph defining the operative rights of Bay Transport Company:

"Sugar and refinery supplies between Crockett and San Francisco; sugar from Crockett to Oakland and Richmond; and sugar, in packages, in lots of not less than 100 tons, from Crockett to Mare Island."

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this 9th day of August, 1937.
