Decision No. 20079

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA

In the matter of the application of  
PACIFIC GAS AND ELECTRIC COMPANY, a  
corporation, for an order of the  
Railroad Commission of the State of  
California, granting to applicant a  
certificate of public convenience  
and necessity, to exercise the right,  
privilege and franchise granted to  
applicant by Ordinance No. 330 of  
the Council of the City of Pacific  
Grove, County of Monterey, State of  
California.

Application No. 21056.

R. W. DuVal for Applicant,  
R. E. Foster, City Attorney, for the City of Pacific Grove.

WAKEFIELD, COMMISSIONER:

O P I N I O N

In this application Pacific Gas and Electric Company asks for a certificate of public convenience and necessity authorizing it to exercise the thirty-five year franchise granted to it by Ordinance No. 330 of the City Council of the City of Pacific Grove, County of Monterey, adopted on October 15, 1936, a copy of which is marked Exhibit "A" and attached to and made a part of the application.

Public hearing was held on this matter at Monterey, California, on April 16, 1937. No one appeared to protest the granting of the application.

Evidence introduced by applicant establishes the facts that for more than thirty (30) years last past applicant or its predecessors in interest have been furnishing gas service to the City of Pacific Grove and its inhabitants under and pursuant to

the franchise granted by Section 19 of Article XI of the Constitution of the State of California as it existed from 1885 to October 10, 1911, and that applicant is now furnishing such service in substantially all parts of said City; that no person, firm, or corporation other than applicant is now engaged in the public utility business of furnishing gas in said City; and that present and future public convenience and necessity require, and will require, that applicant exercise the franchise granted by said Ordinance No. 330 in order that applicant may continue to furnish gas to said City and its inhabitants, and further in order that applicant may qualify its first and refunding mortgage bonds as legal investments for savings banks and trust funds in certain states.

It appears from the evidence that the laws of the State of New York permit investments by savings banks in the bonds of gas and electric corporations provided, among other things, that "such corporation shall have all franchises necessary to operate in territory in which at least seventy-five (75) per centum of its gross income is earned, which franchise shall either be indeterminate permits or agreements with, or subject to the jurisdiction of a public service commission or other duly constituted regulatory body, or shall extend at least five (5) years beyond the maturity of such bonds,\*\*\*\*" and that the statutes of other states contain similar provisions.

Ability to comply with these statutory provisions materially assists applicant in selling its securities, and the granting of this application is only one step in applicant's program of qualifying its bonds under these laws. Other applications involving other areas in which applicant is rendering service are now pending before this Commission.

Applicant has stipulated that it, its successors or assigns will never claim before the Commission or any court

or public body, any value for said franchise granted by said Ordinance No. 330 in excess of the actual cost thereof, which cost was Three thousand thirty-eight and 60/100 Dollars (\$3,038.60), exclusive of the Fifty Dollar (\$50) filing fee.

It appears that this application should be granted, and I recommend the following form of order:

O R D E R

Pacific Gas and Electric Company having asked the Commission for a certificate of public convenience and necessity, as described in the opinion above, public hearing having been held, and the matter being submitted and ready for decision,

The effective date of this order is the date hereof.

Dated at San Francisco, California, this 28<sup>th</sup> day of August, 1937.
