

Decision No. 30253

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA.

In the matter of the application of PACIFIC GAS AND ELECTRIC COMPANY, a corporation, for an order of the Railroad Commission of the State of California, granting to applicant a certificate of public convenience and necessity, to exercise the right, privilege and franchise granted to applicant by Ordinance No. 21 of the City Council of the Town of Bayshore, County of San Mateo, State of California.

ORIGINAL

Application No. 21286.

R. W. DuVal, for Applicant.

WAKEFIELD, COMMISSIONER:

O P I N I O N

In this application, Pacific Gas and Electric Company asks for a certificate of public convenience and necessity authorizing it to exercise the fifty (50) year franchise granted to it by Ordinance No. 21 of the City Council of the Town of Bayshore, County of San Mateo, adopted on November 4, 1936, a copy of which is marked Exhibit "A" and attached to and made a part of the application.

Public hearing was held on this matter at San Francisco, California, on September 21, 1937. No one appeared to protest the granting of the application.

Evidence introduced by applicant establishes the facts that it is now and since the year 1929 has been furnishing gas service to said Town of Bayshore and its inhabitants, under and pursuant to the following general county franchises granted to applicant's predecessors in interest by the Board of Supervisors of the County of San Mateo:

<u>Ord.</u> <u>No.</u>	<u>Adopted</u>	<u>Expiring</u>	<u>G r a n t e e</u>
143	Oct. 4, 1897	Oct. 4, 1944	San Mateo Electric Lighting Company,
142	Oct. 4, 1897	Oct. 4, 1947	Peninsula Lighting Company,

and that applicant is now furnishing such service in in substantially all parts of the town; that no person, firm, or corporation other than applicant is now engaged in the public utility business of furnishing gas in said town; and that present and future public convenience and necessity require and will require that applicant exercise the franchise granted by said Ordinance No. 21, in order that applicant may continue to furnish gas to said town and its inhabitants; and, further, in order that applicant may qualify its first and refunding mortgage bonds as legal investments for savings banks and trust funds in certain states.

It appears from the evidence that the laws of the State of New York permit investments by savings banks in the bonds of gas and electric corporations provided, among other things, that "such corporation shall have all franchises necessary to operate in territory in which at least seventy-five (75) per centum of its gross income is earned, which franchises shall either be indeterminate permits or agreements with, or subject to the jurisdiction of a public service commission or other duly constituted regulatory body, or shall extend at least five (5) years beyond the maturity of such bonds, * * * " and that the statutes of other states contain similar provisions. Ability to comply with these statutory provisions materially assists the applicant in selling its securities and the granting of this application is one step in the applicant's program of qualifying its bonds under these laws. Other applications involving other areas in which applicant is rendering service are now pending before the Commission.

Applicant has stipulated that it, its successors or assigns, will never claim before the Commission, or any court

or public body, any value for said franchise granted by Ordinance No. 21 in excess of the actual cost thereof, which cost was Eight hundred seventeen and 50/100 Dollars (\$817.50), exclusive of the Fifty Dollar (\$50) filing fee.

It appears that this application should be granted, and I recommend the following form of order:

O R D E R

The foregoing opinion and order are hereby approved and ordered filed as the opinion and order of the Railroad Commission of the State of California.
