For the year 1938 the company estimates its expenditures for additions and betterments at \$689,268.00 and its retirements at \$197,720.00 resulting in estimated net additions for the year of \$491,548.00, as set forth in some detail in Exhibit "5".

To meet its requirements the company reports the need of additional capital funds and accordingly has filed this application for permission to issue the bonds and to use the proceeds to reimburse its treasury for expenditures heretofore made and to finance the estimated expenditures for 1938.

In making the application, however, the company reports that it as yet has made no definite arrangements to dispose of its bonds. The order herein for this reason will be of a preliminary nature and will permit the company to issue and hypothecate the bonds. The request to sell the bonds will be considered in a supplemental decision when applicant has furnished the Commission with further information concerning its plans and arrangements for their sale.

ORDER

California Water & Telephone Company having applied to the Railroad Commission for an order authorizing it to issue \$400,000.00 of bonds, and the Commission being of the opinion that this is not a matter in which a public hearing is necessary, that the company at this time should be authorized to issue \$400,000.00 of bonds and hypothecate the same, and that the money, property or labor to be procured or paid for by such issue is reasonably required for the purpose specified herein, which purpose is not, in whole or in part, reasonably chargeable to operating expenses or to income,
