

Decision No. 32207

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application)
of John J. Williams d.b.a. Williams)
Transfer Co. for permission to charge) Application No. 22885
less than minimum rates on Paper,)
Paper Articles, and Stationers')
Supplies.)

BY THE COMMISSION:

OPINION AND ORDER

By this application John J. Williams, doing business as Williams Transfer Co., a highway contract and city carrier, seeks authority under Section 10 of the City Carriers' Act and Section 11 of the Highway Carriers' Act to transport paper, paper articles and related commodities for the United States Paper Company, between points within the Los Angeles drayage area, at rates less than the minimum rates established by Decision No. 31473 of November 25, 1938, as amended, in Case No. 4121.

Applicant alleges that he renders a scheduled and routed delivery service within the Los Angeles drayage area for the transportation of property, including paper, paper articles and stationers' supplies, under contract with several shippers; and that due to the specialized nature of this service, the high-load factor experienced and his ability to handle the traffic without delay to equipment, he can transport the commodities involved in this application at rates substantially less than those established by Decision No. 31473, supra, as amended. Applicant alleges, further, that the rates sought are reasonable for the transportation involved and will yield revenues in excess of the cost of performing the service. He points out, in

addition, that authority substantially the same as that here sought¹ has been granted several other carriers.

In further support of the application, applicant states that United States Paper Company is now performing the transportation here involved in leased equipment but has agreed to employ applicant if the sought rates are authorized. He asserts that this shipper will continue to operate leased equipment if the application is denied.

It appears that the same authority as has been granted the other carriers hereinbefore mentioned should be granted Williams Transfer Co. without public hearing. However, the allegations set forth in the application do not appear to justify the granting of authority different in any respect from that granted such other carriers. In the event applicant desires other or different authority, a supplemental application should be filed setting forth the facts deemed by him to justify the granting thereof.

Therefore, good cause appearing,

IT IS HEREBY ORDERED that John J. Williams, doing business as Williams Transfer Co. be and he is hereby authorized to assess and collect, for the transportation for which rates are provided in Appendix "A" attached hereto and by this reference made a part hereof, rates less than the minimum rates heretofore established by the Commission but not less than those provided in said appendix.

The authority herein granted shall expire October 31, 1939,

¹ Authority similar to that herein sought has previously been granted to Reader Transportation Service (Decision No. 31330 of October 3, 1938, in Application No. 22086); F. Teskey (Decision No. 31379 of October 20, 1938, in Application No. 22283); Service Transportation Company, Inc. (Decision No. 31402 of October 31, 1938, in Application No. 22322); L. Pettit (Decision No. 31437 of November 5, 1938, in Application No. 22336); Cole McGee (Decision No. 31440 of November 5, 1938, in Application No. 22334); Co-Operative Delivery Service, Ltd. (Decision No. 31574 of November 19, 1938, in Application No. 22433); Goodman Delivery Service, Inc. (Decision No. 31474 of November 25, 1938, in Application No. 22381); and Joaquin Lopez (Decision No. 31611 of December 28, 1938, in Application No. 22450).

unless sooner canceled, changed or extended by appropriate order of the Commission.

This order shall become effective on the date hereof.

Dated at San Francisco, California, this 1st day of August, 1939.
