

Decision No. 32578

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application
of PACIFIC GREYHOUND LINES, a
corporation, for a consolidation
of operating rights between Selma
and Visalia with the remainder of
applicant's system. }

Supplemental
Application No. 19721

ORIGINAL

BY THE COMMISSION:

SUPPLEMENTAL OPINION AND ORDER

The Commission, by its Decision No. 27566, dated December 3, 1934, on the original application herein, authorized Pacific Greyhound Lines, Inc., the predecessor in interest of applicant herein, Pacific Greyhound Lines, to acquire from Stormont, Gillen and Gillen, doing business as Anchor Bus & Truck Company, certain operative rights for the transportation of passengers, baggage and express, between Selma and Visalia, via Dimuba. No authority, however, was expressly granted in said decision consolidating said operative rights with the remainder of the operative rights then owned by said Pacific Greyhound Lines, Inc.

By this supplemental application, Pacific Greyhound Lines, successor in interest to Pacific Greyhound Lines, Inc., requests an order of the Commission consolidating said operative right with the remainder of said applicant's operative rights created by Decision No. 23244.

In support of such request, applicant alleges that in Application No. 19721 authority was expressly sought for the consolidation of the right acquired under the authority of Decision

No. 27566 with the rights created by said Decision No. 23244. Applicant further alleges that no authority was conferred by Decision No. 27566 consolidating said rights, although from the wording therein applicant feels that such authority was given. To avoid the possibility of any confusion or controversy, applicant desires that Decision No. 27566 should be clarified and authority expressly given to effectuate the consolidation herein sought.

This does not appear to be a matter requiring a public hearing and the request being in the public interest will be granted.

Good cause appearing,

IT IS ORDERED that the operative rights heretofore created by Decision No. 27566, dated December 3, 1934, are hereby consolidated with the operative rights created by Decision No. 23244.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this 21st day of November, 1939.
