

Decision No. 21452.

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of)

ROLLAND ANNERS)

for authority to charge less than)
minimum rates.)

ORIGINAL
Application No. 21452

BY THE COMMISSION:

O P I N I O N

By his application filed September 3, 1937, Rolland Annars, to whom had been issued permits authorizing operation as a radial highway common carrier and as a city carrier, but who now holds only a radial highway common carrier permit, sought authority under Section 11, Highway Carriers' Act and Section 10, City Carriers' Act, to establish a rate for the transportation of property in dump trucks lower than the minimum rates established by the Commission for such transportation by Decision No. 28836, dated May 25, 1936, in Case No. 4087. Specifically, applicant requested permission to maintain a rate of \$1.24 per hour for transportation to be performed by his 2-cubic yard dump truck in connection with certain W.P.A. projects in the City and in the County of Los Angeles.

The application does not disclose whether the transportation concerning which relief was sought would be of a continuing nature. Moreover, applicant has requested that his application be dismissed. Accordingly, such will be the order.

O R D E R

The Commission having duly considered the application in this matter, and being now fully advised,

IT IS HEREBY ORDERED that the above entitled proceeding
be and it is hereby dismissed.

This order shall become effective immediately.

Dated at San Francisco, California, this 5th day of
March, 1940.
