tion by Applicant of an Electrical Trans-)
mission Line from Applicant's Chino Substation,)
located in San Bernardino County, California,)
to San Juan Capistrano, Orange County,)
California.)

Application
No. 23507.

ORIGINAL

BY THE COMMISSION:

Southern California Edison Company, Ltd., has applied for authority, under Section 50(a) of the Public Utilities Act, to build an electrical transmission line and acquire necessary lands and rights to enable it to interchange electric energy with San Diego Consolidated Gas and Electric Company under the terms of an agreement heretofore approved by the Commission, in Decision No. 33066, following a public hearing on Application No. 23450. It was apparent to the Commission at the time of the approval of said agreement from evidence received at said hearing that construction of the facilities herein contemplated would be necessary to carry out the terms of said agreement.

It is evident therefore that the requested authority should be granted and that a public hearing in the matter is not necessary.

O R D E R

It is hereby found as a fact that public convenience and necessity require and will require and Southern California Edison Company Ltd. is hereby granted a certificate for the building and operation of a high tension electrical transmission line from its substation at Chino, San Bernardino County, to its substation at San Juan Capistrano, Orange County, as more particularly described in that certain interchange agreement by and between Southern California Edison Company Ltd. and San Diego Consolidated
