

Decision No. 33516.

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA

In the matter of the Application of ROBIN C. JOLLIFFE, an individual doing business under the style and business name of PALOMAR MOUNTAIN STAGES, for certificate of public convenience and necessity to operate a passenger, freight, express and mail automotive stage service, between Los Angeles, California, and Palomar Mountain Conservatory, and between Oceanside, California, and Palomar Mountain Observatory and intermediate points between Oceanside and Palomar Mountain Observatory.

Application
No. 23316.

BY THE COMMISSION:

FIRST SUPPLEMENTAL ORDER

Robin C. Jolliffe filed a supplemental application, requesting that the time limit fixed in Decision No. 33114, dated May 21, 1940, on Application No. 23316, for the establishment of motor coach service between Oceanside and Palomar Mountain, be extended for a period of six (6) months.

Applicant, by its verified application, alleges that the original date specified for the commencement of said service was predicated upon the completion of the Mt. Palomar Observatory; that, due to unforeseen delays in the manufacture of the 200-inch mirror, the date of completion of said Observatory has been delayed; and that because of present conditions there is little demand at this time for motor coach service to the Observatory.

Good Cause Appearing,

IT IS HEREBY ORDERED that Conditions (2) and (3) contained in this Commission's Decision No. 33114, dated May 21,

1940, on Application No. 23316, be amended to read as follows:

- (2) Applicant shall commence the service herein authorized within a period of not to exceed nine (9) months from the effective date hereof, and shall file in triplicate and concurrently make effective, on not less than ten (10) days' notice to the Railroad Commission and the public, a tariff or tariffs constructed in accordance with the requirements of the Commission's General Orders and containing rates and rules which, in volume and effect, shall be identical with the rates and rules shown in the exhibit attached to the application, in so far as they conform to the certificate herein granted, or rates and rules satisfactory to the Railroad Commission.
- (3) Applicant shall file, in triplicate, and make effective within a period of not to exceed nine (9) months after the effective date of this Order, on not less than five (5) days' notice to the Railroad Commission and the public, time schedules covering the service herein authorized, in a form satisfactory to the Railroad Commission.

For all other purposes said Decision No. 33114 shall remain in full force and effect.

Dated at San Francisco, California, this 17th day of September, 1940.
