Case No. 4434

BY THE COMMISSION:

SUPPLEMENTAL OPINION AND ORDER

An adjourned hearing was held in these proceedings before Examiner Bryant in Los Angeles on March 10, 1941, for the purpose of affording a hearing herein to certain highway carriers and city carriers who had not previously had an opportunity to be heard respecting the subject matter of these proceedings. Minimum rates, rules and regulations applicable to all other highway carriers and city carriers have heretofore been established herein by Decision

No. 32629.¹ The carriers for whom such hearing was held include those who first obtained permits as radial highway common carriers, highway contract carriers or city carriers between August 29, 1940 and February 21, 1941, inclusive; certain other radial highway common carriers, highway contract carriers and city carriers named in Appendix "A" hereof; and those highway common carriers named in Appendix "B" hereof. The record shows that the order instituting investigation herein was duly served on and notice of said hearing herein duly given all such carriers.

Evidence was introduced at the hearing, based upon studies of rates and costs of operation, that the minimum rates and charges and the rules and regulations established by said Decision No. 32629, and as set forth in City Carriers' Tariff No. 3 and Highway Carriers' Tariff No. 4, as supplemented, amended and modified, are just, reasonable and nondiscriminatory for all highway carriers and city carriers, including those carriers hereinabove referred to as well as those previously subject thereto. No criticism was made of the propriety of those minimum rates and charges, rules and regulations and no reason was advanced why they should not be applied as minimum by said carriers. The minimum rates and

¹ Decision No. 32629 of December 7, 1939, in the above entitled proceedings reestablished minimum rates and rules and regulations for the transportation of used property, consisting of household goods, personal effects and office and store fixtures and equipment, between points in California by highway common carriers, radial highway common carriers, highway contract carriers and carriers as defined in Chapter 312, Statutes 1935, as amended, (herein referred to as "city carriers") which rates were originally established in Decision No. 32325 of September 19, 1939, in Cases Nos. 4086 and 4099. The rates and rules and regulations reestablished by Decision No. 32629 were promulgated in the form of a loose-leaf tariff entitled City Carriers' Tariff No. 3 and Highway Carriers' Tariff No. 4, which was attached to said Decision No. 32629 as Appendix "A" thereof. Decision No. 32629 has been subsequently modified, supplemented, and amended and new and revised pages incorporating such changes in the tariff have been issued.

charges and rules and regulations contained in said City Carriers' Tariff No. 3 and Highway Carriers' Tariff No. 4 are based upon favorable conditions affecting the various types of operation and appear to be equally proper for the carriers for whom this hearing was provided and for the others.

We therefore conclude that the minimum rates, charges, accessorial charges, and the ratings, rules and regulations established in and by Decision No. 32629, as supplemented, amended, and modified, and as set forth in said City Carriers' Tariff No. 3 and Highway Carriers' Tariff No. 4 (Appendix "D" hereof) should be established for and made applicable by all highway carriers and city carriers.

F I N D I N G S

Upon consideration of all of the evidence of record, the Commission is of the opinion and finds:

1. That the rates, charges, accessorial charges, rules and regulations set forth in City Carriers' Tariff No. 3 and Highway Carriers' Tariff No. 4, designated as Appendix "D" of the order herein, are and will be for the future the just, reasonable and nondiscriminatory minimum rates, charges and accessorial charges to be assessed, charged and collected, and the just, reasonable and nondiscriminatory rules and regulations to be observed in applying such rates, charges and accessorial charges, by all radial highway common, highway contract carriers and city carriers who first obtained permits between the dates of August 29, 1940 and February 21, 1941, inclusive, and by all radial highway common carriers, highway contract carriers and city carriers named in Appendix "A" hereof.

2. That subject to the terms and conditions of Item No. 150 series of said tariff, all said radial highway common carriers and highway contract carriers should be authorized to assess, charge and collect rates, charges and accessorial charges of common carriers, lawfully on file with this Commission and in effect on the date of movement and to observe the ratings, rules and regulations governing the common carrier rate, charge or accessorial charge used, whenever such rates, charges and accessorial charges applied subject to the governing ratings, rules and regulations, produce lower aggregate charges than would accrue for the same transportation under the rates, rules, regulations and accessorial charges found just, reasonable and nondiscriminatory in Finding No. 1.

3. That except as provided in Finding No. 2, all of said radial highway common carriers, highway contract carriers and city carriers should be required to assess, charge and collect, for the transportation or accessorial services to which said tariff is applicable, rates, charges and accessorial charges no lower in volume or effect than those set forth or referred to in said tariff and to observe rules and regulations no lower in volume or effect than those set forth or referred to therein.

4. That except as provided in Finding No. 5, the existing ratings, rates, charges, rules, regulations and accessorial charges maintained by highway common carriers named in Appendix "B" hereof are and will for the future be unreasonable, insufficient and not justified by the actual competitive rates of competing carriers or by the cost of other means of transportation, in so far as they are lower in volume or effect than those set forth in the tariff designated as Appendix "D" of the order herein for the performance of the same transportation and the same accessorial services by

radial highway common carriers and highway contract carriers.

5. That said highway common carriers should be authorized to assess, charge and collect rates, charges and accessorial charges maintained by common carriers and not required to be changed by the order herein, to construct combinations therewith, and to observe the ratings, rules and regulations governing the common carrier rate, charge or accessorial charge used, in the same manner as herein found justified for radial highway common carriers and highway contract carriers in Finding No. 2, subject to the terms and conditions of Item No. 150 series of said tariff designated as Appendix "D" of the order herein.

6. That except as provided in Finding No. 5, rates, charges, rules, regulations and accessorial charges no lower in volume or effect than those set forth in said tariff designated as Appendix "D" of the order herein will be "just, reasonable and sufficient" for said highway common carriers.

7. That except as provided in Finding No. 5, said highway common carriers should be required to cancel all ratings, rates, charges, rules, regulations or accessorial charges lower in volume or effect than those set forth in said tariff designated as Appendix "D" of the order herein, and to establish in their stead ratings, rates, charges, rules, regulations and accessorial charges no lower in volume or effect than those therein set forth.

8. That said highway common carriers will not for the future be justified in charging, collecting or observing rates, charges, rules, regulations or accessorial charges lower in volume or effect than those found justified in the preceding findings.

9. That said highway common carriers, radial highway common

carriers, highway contract carriers and city carriers should be required to issue a shipping document for each shipment received for transportation, showing thereon the names of the shipper and consignee, the point of origin and point of destination of the shipment, a description of the shipment, the rate and charge assessed and such other information respecting each of the factors entering into the computation of the charge as may be necessary in conjunction with the tariff designated as Appendix "D" of the order herein, or said tariff as may hereafter be modified, to verify the lawfulness of such charge; that a copy of such shipping document shall be retained and preserved by the carrier for reference and subject to the Commission's inspection, for a period of not less than three (3) years from the date of its issuance; and that the forms of shipping document set forth in Appendix "C" of the order herein will be suitable and proper.

10. That none of said radial highway common carriers, highway contract carriers or city carriers should be permitted to quote, assess, charge, collect, or observe rates, rules, regulations or accessorial charges in a unit of measurement different from that in which the rates herein provided as minimum for the same transportation or accessorial charges are stated.

11. That to the extent carriers affected by the order herein, other than those subject to the Public Utilities Act, may be deemed to be "transportation companies" within the meaning of Article XII, Section 21 of the Constitution of the State of California, they should be authorized to charge less for longer than for shorter distances, to the extent necessary to meet the rates of competitive forms of for-hire transport for the same transportation, under the terms and conditions and in the manner provided in said tariff designated as Appendix "D" of the order herein.

O R D E R

An adjourned public hearing having been held in the above entitled proceedings, and based upon the evidence received therein and upon the conclusions and findings set forth in the preceding opinion,

IT IS HEREBY ORDERED:

1. That the rates, charges, accessorial charges, rules, and regulations set forth in City Carriers' Tariff No. 3 and Highway Carriers' Tariff No. 4 designated as Appendix "D", attached hereto and by this reference made a part hereof, be and they are hereby established and approved as the just, reasonable and nondiscriminatory minimum rates, charges and accessorial charges to be assessed, charged and collected, and the rules and regulations to be observed, by any and all radial highway common carriers, highway contract carriers, and city carriers who first obtained permits between the dates of August 29, 1940 and February 21, 1941, inclusive, and by all radial highway common carriers, highway contract carriers and city carriers named in Appendix "A" hereof, for the transportation of the property and between the points for which rates and charges are provided in said tariff and for the accessorial services rendered incident thereto, except as provided in ordering paragraph No. 2.

2. That all of said radial highway common carriers and highway contract carriers be and they are hereby authorized to assess, charge and collect common carrier rates and accessorial charges, and to observe common carrier rules and regulations lawfully on file with the Commission and in effect on the date of movement, subject to the terms and conditions and in the manner explained in Finding No. 2 of the preceding opinion.

3. That on and after the effective date of this order all of said radial highway common carriers, highway contract carriers and city carriers be and they are hereby ordered and directed to cease and desist and thereafter to abstain from assessing, charging or collecting rates, charges or accessorial charges lower in volume or effect than those set forth or referred to in said tariff, and from observing rates, rules or regulations lower in volume or effect than those set forth or referred to therein.

4. That on and after the effective date of this order all of said radial highway common carriers, highway contract carriers, and city carriers be and they are hereby ordered and directed to cease and desist and thereafter to abstain from quoting, assessing, charging or collecting rates or accessorial charges based upon a unit of measurement different from that in which the rates and charges herein established as minimum are stated.

5. That all highway common carriers named in Appendix "B" hereof maintaining ratings, rates, charges, rules or regulations found by Finding No. 4 in the preceding opinion to be unreasonable, insufficient and not justified by the actual competitive rates of competing carriers or by the cost of other means of transportation, be and they are hereby ordered and directed to cancel said ratings, rates, charges, rules and regulations on or before April 1, 1941, on not less than three (3) days' notice to the Commission and to the public, and to establish in their stead ratings, rates, charges, rules and regulations no lower in volume or effect than those found reasonable or sufficient, or justified by Findings Nos. 4 to 7 inclusive.

6. That on and after the effective date of this order all highway common carriers named in Appendix "B" hereof be and they

are hereby ordered and directed to cease and desist and thereafter to abstain from publishing or maintaining in their tariffs rates, charges, accessorial charges, rules or regulations lower in volume or effect than those found reasonable and sufficient, or justified, by Findings Nos. 4 to 7, inclusive, in the opinion preceding this order.

7. That to the extent carriers affected by the order herein may be deemed to be "transportation companies," within the meaning of Article XII, Section 21 of the Constitution of the State of California, other than carriers subject to the Public Utilities Act, said carriers be and they are hereby authorized to charge less for longer than for shorter distances, to the extent necessary to meet the rates of competitive forms of for-hire transport for the same transportation, under the terms and conditions and in the manner provided in said tariff designated as Appendix "D" hereof.

8. That all of said highway common carriers, radial highway common carriers, highway contract carriers, and city carriers be and they are and each of them is hereby ordered and directed to issue a shipping document for each shipment received for transportation, showing thereon the names of the shipper and consignee, the point of origin and point of destination of the shipment, a description of the shipment, the rate and charge assessed, and such other information respecting each of the factors entering into the computation of the charge as may be necessary, in conjunction with the tariff designated as Appendix "D" hereto, or said tariff as it may hereafter be modified to verify the lawfulness of such charge; and shall retain and preserve a copy of said shipping document; subject to the Commission's inspection, for a

period of not less than three (3) years from the date of its issuance; and that the forms of shipping document set forth in Appendix "C" hereto will be suitable and proper.

9. That any and all supplements to or modifications and amendments of said City Carriers' Tariff No. 3 and Highway Carriers' Tariff No. 4, being Appendix "A" to Decision No. 32629, and Appendix "D" to this decision, hereinafter made in this proceeding, shall be and shall be deemed to constitute supplement, modification or amendment of this decision also, without express reference to this decision therein.

This order shall become effective April 1, 1941.

Dated at San Francisco, California, this 25th day of March, 1941.
