BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Establishment)
of maximum or minimum, or maximum)
and minimum rates, rules and regu-)
lations of all common carriers as)
defined in the Public Utilities Act)
of the State of California, as)
amended, and all highway carriers)
as defined in Chapter 223, Statutes)
of 1935, as amended, for the trans-)
portation, for compensation or hire,)
of any and all commodities.)

ORIGINAL

Case No. 4246

BY THE COMMISSION:

SUPPLEMENTAL OPINION

An adjourned hearing was held in this proceeding before Examiner Mulgrew in San Francisco on May 13, 1941, for the purpose of affording a hearing herein to certain highway carriers who had not previously had an opportunity to be heard respecting the subject matter of this proceeding. Minimum rates, rules and regulations applicable to all other highway carriers have heretofore been established by Decision No. 31606, as amended.¹ The carriers for whom this hearing was held include those who first obtained permits as radial highway common carriers or highway contract carriers between February 24, 1941, and April 26, 1941, inclusive, and certain other radial highway common carriers and highway contract carriers named in Appendix "A" hereof. The record shows that the order instituting

¹

Decision No. 31606 of December 27, 1938, in the above entitled proceeding established minimum rates, rules and regulations for the transportation of property within California by highway carriers. These rates, rules and regulations were promulgated in the form of a loose-leaf tariff entitled "Highway Carriers' Tariff No. 2," which was attached to said Decision No. 31606, as Appendix "D" thereof. Decision No. 31606 has been subsequently modified, supplemented, and amended from time to time and new and revised pages incorporating such changes in the tariff have been issued.

investigation herein was duly served on and notice of said hearing herein duly given all such carriers.

Evidence was introduced at the hearing, based upon studies of rates and costs of operation, that the minimum rates and charges and the rules and regulations established by said Decision No. 31606, as amended and as set forth in Highway Carriers' Tariff No. 2, as supplemented, amended and modified, a copy of which said tariff is attached hereto, designated Appendix "C" and made a part hereof, are just, reasonable and nondiscriminatory for all highway carriers, including those carriers hereinabove referred to as well as those previously subject thereto. No criticism was made of the propriety of those minimum rates and charges, rules and regulations and no reason was advanced why they should not be applied as minimum by said carriers. The minimum rates and charges and rules and regulations contained in said Highway Carriers' Tariff No. 2 are based upon favorable conditions affecting the various types of operation and appear to be equally proper for the carriers for whom this hearing was provided and for the others.

We, therefore, conclude that the minimum rates, charges, accessorial charges, and the ratings, rules, and regulations established in and by Decision No. 31606, as supplemented, amended, and modified, and as set forth in said Highway Carriers' Tariff No. 2 (Appendix "C" hereof) should be established for and made applicable by all highway carriers.

FINDINGS

Upon consideration of all the evidence of record, the Commission is of the opinion and finds:

1. That except as provided in Finding No. 2, the rates,

charges, accessorial charges, ratings, rules and regulations set forth in Highway Carriers' Tariff No. 2, designated as Appendix "C" of the order herein, are and will be for the future the just, reasonable and nondiscriminatory minimum rates, charges, and accessorial charges to be assessed, charged and collected and the just, reasonable and nondiscriminatory minimum ratings, rules and regulations to be observed in applying such rates, charges and accessorial charges, by all radial highway common carriers and highway contract carriers who first obtained permits between the dates of February 24, 1941, and April 26, 1941, inclusive, and by all radial highway common carriers and highway contract carriers named in Appendix "A" hereof.

2. That subject to the terms and conditions of Items Nos. 200 to 240 series, inclusive, of said tariff, all said radial highway common carriers and highway contract carriers should be authorized to assess, charge and collect rates, charges and accessorial charges of common carriers, lawfully on file with this Commission and in effect on the date of movement, to construct combinations therewith and to observe the ratings, rules and regulations governing the common carrier rate, charge or accessorial charge used, whenever such rates, charges and accessorial charges, or combinations therewith, applied subject to the governing ratings, rules and regulations, produce lower aggregate charges than would accrue for the same transportation under the ratings, rates, rules, regulations and accessorial charges found just, reasonable and nondiscriminatory in Finding No. 1.

3. That except as provided in Finding No. 2, all of said radial highway common carriers and highway contract carriers should be required to assess, charge and collect, for the transportation or accessorial services to which said tariff is applicable, rates, charges and accessorial charges no lower in volume or effect than

those set forth or referred to in said tariff and to observe ratings, rules and regulations no lower in volume or effect than those set forth or referred to therein.

4. That each and all of said radial highway common carriers, and highway contract carriers should be required to issue a shipping document (either in individual or manifest form) for each shipment received for transportation, showing thereon the names of the shipper and consignee, the point of origin and point of destination of the shipment, a description of the commodities shipped in the terms of the Western Classification and Pacific Freight Tariff Bureau Exception Sheet, a statement of the weight of the shipment (or other factor or measurement upon which charges are based), a statement of such other information as may be necessary to an accurate determination of minimum rates and charges applicable under the order herein; that a copy of such shipping document shall be retained and preserved by the carrier for reference and subject to the Commission's inspection for a period of not less than three (3) years from the date of its issuance; and that the form of shipping document set forth in Appendix "B" of the order herein will be suitable and proper.

5. That none of said radial highway common carriers or highway contract carriers should be permitted to quote, assess, charge, collect or observe rates, rules, regulations or accessorial charges in a unit of measurement different from that in which the rates herein provided as minimum for the same transportation or accessorial charges are stated.

6. That to the extent carriers affected by the order herein, other than those subject to the Public Utilities Act, may be deemed to be "transportation companies" within the meaning of Article XII, Section 21 of the Constitution of the State of California, they should

be authorized to charge less for longer than for shorter distances to the extent necessary to meet the rates of competitive forms of for-hire transport for the same transportation, under the terms and conditions and in the manner provided in said tariff designated as Appendix "C" of the order herein.

O R D E R

An adjourned public hearing having been held in the above entitled proceeding, and based upon the evidence received therein and upon the conclusions and findings set forth in the preceding opinion,

IT IS HEREBY ORDERED:

1. That the rates, charges, accessorial charges, rules and regulations set forth in Highway Carriers' Tariff No. 2, designated as Appendix "C" attached hereto and by this reference made a part hereof, be and they are hereby established and approved as the just, reasonable and nondiscriminatory minimum rates, charges and accessorial charges to be assessed, charged and collected, and the rules and regulations to be observed, by any and all radial highway common carriers and highway contract carriers who first obtained permits between the dates of February 24, 1941, and April 26, 1941, inclusive, and by all radial highway common carriers and highway contract carriers named in Appendix "A" hereof, for the transportation of the property and between the points for which rates and charges are provided in said tariff and for the accessorial services rendered incident thereto, except as provided in ordering paragraph No. 2, hereof.

2. That all of said radial highway common carriers and highway contract carriers be and they are hereby authorized to assess, charge and collect common carrier rates and accessorial charges, to construct combinations therewith, and to observe common carrier rules

and regulations lawfully on file with the Commission and in effect on the date of movement, subject to the terms and conditions and in the manner provided in Items Nos. 200 to 240 series, inclusive, of said tariff.

3. That on and after the effective date of this order all of said radial highway common carriers and highway contract carriers be and they are hereby ordered and directed to cease and desist and thereafter to abstain from assessing, charging or collecting rates, charges or accessorial charges lower in volume or effect than those set forth or referred to in said tariff, and from observing rates, rules or regulations lower in volume or effect than those set forth or referred to therein.

4. That on and after the effective date of this order all of said radial highway common carriers and highway contract carriers be and they are hereby ordered and directed to cease and desist and thereafter to abstain from quoting, assessing, charging or collecting rates or accessorial charges based upon a unit of measurement different from that in which the rates and charges herein established as minimum are stated.

5. That to the extent carriers affected by the order herein may be deemed to be "transportation companies," within the meaning of Article XII, Section 21 of the Constitution of the State of California, other than carriers subject to the Public Utilities Act, said carriers be and they are hereby authorized to charge less for longer than for shorter distances, to the extent necessary to meet the rates of competitive forms of for-hire transport for the same transportation, under the terms and conditions and in the manner provided in said tariff designated as Appendix "C" hereof.

6. That all of said radial highway common carriers and

highway contract carriers be and they are, and each of them is, hereby ordered and directed to issue a shipping document (either in individual or manifest form) for each shipment received for transportation, showing thereon the names of the shipper and consignee, the point of origin and point of destination of the shipment, a description of the commodity shipped in the terms of the Western Classification or Exception Sheet, a statement of the weight of the shipment (or other factor or measurement on which charges are based), a statement of the rate assessed and the charges collected, and a statement of such other information as may be necessary to an accurate determination of the minimum rate and charge applicable under the order herein; and shall retain and preserve a copy of said shipping document, subject to the Commission's inspection, for a period of not less than three (3) years from the date of its issuance; and that the form of shipping document set forth in Appendix "B" hereof will be suitable and proper.

7. That any and all supplements to or modifications and amendments of said Highway Carriers' Tariff No. 2, being Appendix "D" to Decision No. 31606 and Appendix "C" to this decision, hereinafter made in this proceeding, shall be and shall be deemed to constitute supplement, modification or amendment of this decision also, without express reference to this decision therein.

This order shall become effective on the date hereof.

Dated at San Francisco, California, this 210th day of May, 1941.

EFFECTIVE APRIL 1, 1941

Correction No. 184

Issued by The Railroad Commission of the State of California,
 San Francisco, California.

ARRANGEMENT OF TARIFF

This is a loose-leaf tariff consisting of four sections.

SECTION NO. 1 contains rules and regulations of general application.

Except as otherwise specifically provided, the rules and regulations contained in Section No. 1 govern the rates in Section No. 2 and Section No. 3 of the tariff.

SECTION NO. 2 contains class rates.

SECTION NO. 3 contains commodity rates.

SECTION NO. 4 contains routing applicable in connection with rates in Section No. 2 and Section No. 3 making specific reference thereto.

EFFECTIVE AS SHOWN ON ORIGINAL TITLE PAGE

Issued by The Railroad Commission of the State of California,
San Francisco, California.

Item No.	SECTION NO. 1—RULES AND REGULATIONS OF GENERAL APPLICATION
10-D Cancels 10-C	DEFINITION OF TECHNICAL TERMS (Items Nos. 10 and 11 Series) (a) CARRIER means a radial highway common carrier or a highway contract carrier, as defined in Highway Carriers' Act (Chapter 223, Statutes of 1935, as amended). (b) CARRIER'S EQUIPMENT means any motor truck or other self-propelled highway vehicle, trailer, semi-trailer, or any combination of such highway vehicles, operated by the carrier. (c) COMMON CARRIER RATE means any intrastate rate or rates of any common carrier, or common carriers, as defined in the Public Utilities Act, lawfully on file with the Commission and in effect at time of shipment. (d) ESTABLISHED DEPOT means a freight terminal owned or leased and maintained by a carrier for the receipt and delivery of shipments. ▲(e) EXCEPTION SHEET means Pacific Freight Tariff Bureau Exception Sheet No. 1-Q, C.R.C. No. 39 of J. P. Haynes, Agent, and supplements thereto or reissues thereof when the provisions of such supplements or reissues have been approved by the Commission. ▲(ee) PICKUP AND DELIVERY CHARGE means the full charge applicable without the deduction authorized by Item No. 110 series. (f) POINT OF DESTINATION means the precise location at which property is tendered for physical delivery into the custody of the consignee or his agent. (g) POINT OF ORIGIN means the precise location at which property is physically delivered by the consignor or his agent into the custody of the carrier for transportation. (h) RAILHEAD means a point at which facilities are maintained for the loading of property into or upon, or the unloading of property from, rail cars or vessels. It also includes truck loading facilities of plants or industries located at such rail or vessel loading or unloading point. (i) RATE includes charge and, also, the ratings, minimum weight, rules and regulations governing, and the accessorial charges applying in connection therewith. (j) SAME TRANSPORTATION means transportation of the same kind and quantity of property and subject to the same limitations, conditions and privileges, although not necessarily in an identical type of equipment. (Continued)
	▲Change, neither increase nor reduction, Decision No. 33738. EFFECTIVE FEBRUARY 1, 1941 Correction No. 164 Issued by The Railroad Commission of the State of California, San Francisco, California.

Item No.	SECTION NO. 1—RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)
11-C Cancels 11-B	DEFINITION OF TECHNICAL TERMS (Concluded) (Items Nos. 10 and 11 Series)
	(k) SHIPMENT means a quantity of freight tendered by one shipper on one shipping document at one point of origin at one time for one consignee at one point of destination. (See also paragraphs (l) and (m).)
	(l) SPLIT PICKUP SHIPMENT means a shipment consisting of several component parts, tendered at one time and received during one day and transported under one shipping document from (a) one consignor at more than one point of origin, or (b) more than one consignor at one or more points of origin, the composite shipment weighing (or transportation charges computed upon a weight of) not less than 4,000 pounds, said shipment being consigned and delivered to one consignee at one point of destination and charges thereon being paid by the consignee when there is more than one consignor.
	(m) SPLIT DELIVERY SHIPMENT means a shipment consisting of several component parts delivered to (a) one consignee at more than one point of destination, or (b) more than one consignee at one or more points of destination, the composite shipment weighing (or transportation charges computed upon a weight of) not less than 4,000 pounds, said shipment being shipped by one consignor at one point of origin and charges thereon being paid by the consignor when there is more than one consignee.
	(n) TAILGATE LOADING means loading of the shipment into or upon carrier's equipment from a point not more than 25 feet distant from said equipment. (o) TAILGATE UNLOADING means unloading of the shipment from carrier's equipment and placing it at a point not more than 25 feet distant from said equipment. (p) TEAM TRACK means a point at which property may be loaded into, or upon, or unloaded from rail cars by the public generally. It also includes wharves, docks and landings at which the public generally may receive and tender shipments of property from and to common carriers by vessel. *(q) WESTERN CLASSIFICATION means Western Classification No. 69, C. R. C.-W. C. No. 2 of R. C. Fyfe, Agent, and supplements thereto or reissues thereof when the provisions of such supplements or reissues have been approved by the Commission.
	*Change, Decision No. 33978
EFFECTIVE APRIL 1, 1941	
Correction No. 185	Issued by The Railroad Commission of the State of California, San Francisco, California.

Item No.	SECTION NO. 1—RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)
20 8-7-39	APPLICATION OF TARIFF—CARRIERS Rates provided in this tariff are minimum rates, established pursuant to the Highway Carriers' Act (Chapter 223, Statutes of 1935, as amended) and apply for transportation of property by radial highway common carriers and highway contract carriers, as defined in said Act. When property in continuous through movement is transported by two or more such carriers, the rates (including minimum charges) provided herein shall be the minimum rates for the combined transportation.
30-B Cancels 30-A	APPLICATION OF TARIFF—TERRITORIAL Rates in this tariff apply for transportation of shipments between all points within the State of California, except: (a) Shipments having point of origin in Alameda, Albany, Berkeley, Emeryville, Oakland or Piedmont, and point of destination in another of those cities; (b) Shipments between San Francisco and South San Francisco; (c) Shipments having point of origin in San Diego, Chula Vista, Coronado or National City, and point of destination in another of those cities; (d) Shipments having both point of origin and point of destination within the Los Angeles Drayage Area, as described in Items Nos. 30 to 33 series, inclusive, of City Carriers' Tariff No. 4 and Highway Carriers' Tariff No. 5 (Appendix "A" of Decision No. 32504 in Case No. 4121). (e) Shipments (1) between Sacramento and North Sacramento; (2) between Sacramento and West Sacramento; (3) between said cities on the one hand and the adjacent plants of the Lumbermen's Supply, Inc., Swanston & Son, Sacramento Wool Company, Sacramento Feed Company and Essex Lumber Company on the other hand; and (4) between said cities and plants on the one hand and the Sacramento Air Depot on the other hand. (f) Shipments between Marysville and Yuba City and between said cities on the one hand and the adjacent plant of the Harter Packing Company on the other hand. ‡ (g) Shipments between the Sonora freight depot of the Sierra Railroad Company and Sonora.

Correction No. 166 Issued by The Railroad Commission of the State of California, San Francisco, California.	

Item No.	SECTION NO. 1—RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)
*90-D Cancels 90-C	MIXED SHIPMENTS ① 1. Commodities for which rates are provided in this tariff: (a) When two or more commodities for which different ratings are provided, are shipped as a mixed shipment, without actual weights being furnished or obtained for the portions shipped under the separate ratings, charges for the entire shipment will be computed at the class or commodity rate applicable to the highest classed or rated commodity contained in such mixed shipment, subject to Item No. 80 series. (b) When two or more commodities are included in the same shipment and separate weights thereof are furnished or obtained, charges will be computed at the separate rates applicable to such commodities in straight shipments of the combined weight of the mixed shipment. The minimum weight shall be the highest provided for any of the rates used in computing the charges, subject to Item No. 80 series. In the event a lower charge results by considering such commodities as if they were divided into two or more separate shipments such lower charge shall apply. ② Paragraph 1 hereof will not apply to mixed shipments which are subject to the provisions of Item No. 265 series of this tariff. 2. Commodities for which rates are provided herein, moving in mixed shipments containing commodities for which rates are provided in other effective tariffs of the Commission, or in mixed shipments containing commodities upon which no minimum rates or charges have been established by this Commission: (a) When one or more commodities for which rates are not provided in this tariff are included in a shipment of one or more commodities for which rates are herein provided, the rate or rates applicable to the entire shipment may be determined as though all of the commodities were ratable under the provisions of this tariff; or one or more of the commodities for which rates are not provided in this tariff may be transported at the rates otherwise applicable. In the event the latter basis is used, the minimum charges provided in Item No. 150 series of this tariff shall apply to the entire shipment. (See Notes 1 and 2.) NOTE 1.—The provisions of this rule will not apply to mixed shipments containing petroleum or petroleum products in bulk in tank trucks, tank trailers or tank semi-trailers for which rates are provided in tariff designated City Carriers' Tariff No. 5, Highway Carriers' Tariff No. 6 (Appendix "C" of Decision No. 32608, as amended, in Cases Nos. 4246 and 4424). NOTE 2.—The provisions of this rule will not apply to mixed shipments containing used property, viz.: household goods, personal effects and office and store fixtures and equipment, for which rates are provided in the tariff designated City Carriers' Tariff No. 3, Highway Carriers' Tariff No. 4, (Appendix "A" of Decision No. 32629, as amended, in Cases Nos. 4246 and 4424). 3. Intrastate and Interstate Tonnage: (a) When property consisting of part intrastate and part interstate tonnage is received as a single shipment, the intrastate portion may be charged for at the rate which would be applicable on such portion were the entire quantity intrastate in character. In no event shall the aggregate charge on the intrastate and interstate portions be less than the charge herein provided for an intrastate shipment of the same combined quantity.

Item No.	SECTION NO. 1—RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)
100-C Cancels 100-B	COMPUTATION OF DISTANCES (a) Distances to be used in connection with distance rates named herein shall be the shortest resulting mileage via any public highway route, computed in accordance with the method provided in Decision No. 31605 of December 27, 1938, as amended, or as may be amended, in Case No. 4088, Part "N", Case No. 4145 and Case No. 4246, subject to the following exceptions: 1. Distances from or to points located within zones described in Item No. 200 series shall be computed from or to the mileage basing points designated in connection with such descriptions. 2. From points of origin or to points of destination more than 70 miles distant from both the San Francisco and the Oakland pickup and delivery zones (computed in accordance with the method hereinabove provided), distances from or to points located within the San Francisco pickup and delivery zone or located within the Oakland pickup and delivery zone shall be the average of the distances from or to the San Francisco pickup and delivery zone and the Oakland pickup and delivery zone (computed in accordance with the method hereinabove provided). In the event such average distance is less than the distance computed from or to an intermediate point via the shortest constructive route, such lesser mileage shall apply from or to such intermediate point. (See Note.) 3. For transportation under rates in Items Nos. 654 and 728 series, between points lying within the Imperial Valley Irrigation District on the one hand and points lying without such district on the other hand, distances shall be those computed in accordance with said Decision No. 31605, as amended, from or to the City of Imperial. *NOTE.—In computing distances under the provisions of Item No. 160 series in connection with split pickup shipments, or under the provisions of Item No. 170 series in connection with split delivery shipments, the average of the distance from or to (or from and to) the San Francisco Pickup and Delivery Zone and the distance from or to (or from and to) the Oakland Pickup and Delivery Zone shall be used only when the distance computed under the provisions of those items from or to (or from and to) both zones is more than 70 constructive miles.
110-D Cancels 110-C	APPLICATION OF RATES—DEDUCTIONS (a) Rates provided in this tariff are for the transportation of shipments, as defined in Item No. 10(k), (l) and (m) series from point of origin to point of destination, subject to Items Nos. 120, 130 and 140 series. (b) Subject to Notes 1, 2, 3 and 4 hereof, when point of origin or point of destination is carrier's established depot, rates shall be 5 cents per 100 pounds (or 5 cents per shipment when shipment weighs less than 100 pounds) less than those specifically named herein. When both point of origin and point of destination are carrier's established depots, rates shall be 10 cents per 100 pounds (or 10 cents per shipment when shipment weighs less than 100 pounds) less than those named herein. In no case shall the net transportation rate be less than 10 cents per 100 pounds when applying the provisions of this paragraph. NOTE 1.—No deduction from rates specifically named herein shall be made under this rule from rates based upon a minimum weight of 10,000 pounds or more, nor from minimum charges provided by Item No. 150 series. NOTE 2.—No deduction from rates specifically named herein shall be made under this rule on shipments transported for persons, companies or corporations upon whose premises depots from or to which the transportation is performed are located. NOTE 3.—When the commodity upon which charges are to be computed is rated at a percentage or multiple of classes 1, 2, 3 or 4, the deductions under this rule shall be made from the resulting rate. *NOTE 4.—Deductions under this rule on split pickup or split delivery shipments shall be made only on the weight of the component parts having point of origin or point of destination, or both (as the case may be), at the carrier's established depots.
* Change, Decision No. 33738.	
EFFECTIVE FEBRUARY 1, 1941	
Issued by The Railroad Commission of the State of California, San Francisco, California. Correction No. 173	

Item No.	SECTION NO. 1—RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)
120	APPLICATION OF LESS CARLOAD RATES Rates based upon less carload or any quantity ratings in the Western Classification, Exception Sheet, or this tariff, and commodity rates subject to minimum weights of less than 10,000 pounds, include loading into and unloading from the carrier's equipment, subject to Note 1. NOTE 1.—When shipment is picked up at or delivered to a point not at street level, and no vehicular elevator service or vehicular ramp is provided and made available to the carrier, an additional charge of 5 cents per 100 pounds shall be assessed for the service of handling shipment beyond carrier's equipment; except that no additional charge shall be made for this service in connection with shipments weighing 100 pounds or less.
130	APPLICATION OF CARLOAD RATES Rates based upon carload ratings in the Western Classification, Exception Sheet, or this tariff, and commodity rates subject to minimum weights of 10,000 pounds or more, include loading into and unloading from the carrier's equipment at established depots. At points of origin or points of destination other than established depots, such rates include service of driver only for loading into and unloading from the carrier's equipment, subject to Note 1. (See Item No. 140 series for charges for additional help.) NOTE 1.—When the time consumed in performing loading, unloading or accessorial services exceeds 20 minutes per ton (based on the weight on which transportation charges are computed) a charge of \$2.00 per hour shall be assessed for the time consumed in excess of 20 minutes per ton.
140	ACCESSORIAL CHARGES An additional charge of \$1.00 per man per hour, minimum charge 50 cents, shall be made for stacking, sorting, helpers for loading or unloading, or any other accessorial or incidental service which is not authorized to be performed under the rate named in this tariff and for which a charge is not otherwise provided.

Item No.	SECTION NO. 1—RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)
190-A Cancels 190	APPLICATION OF COMBINATIONS OF CLASS AND COMMODITY RATES ▲ In the event a combination of any class or commodity or class and commodity rates provided in this tariff produces a lower aggregate charge for the same transportation than is produced by a through distance rate, such combination of rates may be applied.
200-B Cancels 200-A 1-10-40	ALTERNATIVE APPLICATION OF COMMON CARRIER RATES (a) Common carrier rates, except rates of coastwise common carriers by vessel, may be applied in lieu of the rates provided in this tariff, when such common carrier rates produce a lower aggregate charge for the same transportation than results from the application of the rates herein provided. (See Notes 1 and 2.) (b) Team track-to-team track rates of common carriers by railroad or of common carriers by vessel operating over inland waters may be applied in lieu of the rates provided in this tariff, in connection with transportation between established depots in the same cities or unincorporated communities in which such team tracks are located, when such team track-to-team track rates produce a lower aggregate charge than results from the application of the rates provided in this tariff for depot-to-depot movements. (See Notes 1 and 2.) NOTE 1.—When a rail carload rate is subject to varying minimum weights, dependent upon the size of the car ordered or used, the lowest minimum weight obtainable under such minimum weight provisions may be used in applying the basis provided in this item. NOTE 2.—In determining the aggregate charge by railroad of transporting shipments of hay and related articles, as described in Item No. 657 series, there shall be added to the rail rate 25 cents per ton for shrinkage. ▲ Change, neither increase nor reduction, Decision No. 32742.
EFFECTIVE JANUARY 16, 1940	
Correction No. 108	

Issued by The Railroad Commission of the State of California,
San Francisco, California.

Item No.	SECTION NO. 1—RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)
	ALTERNATIVE APPLICATION OF COMBINATIONS WITH COMMON CARRIER RATES ◆ When lower aggregate charges result, rates provided in this tariff may be used in combination with common carrier rates, except rates of coastwise common carriers by vessel, for the same transportation as follows: (a) When point of origin is located beyond railhead or an established depot and point of destination is located at railhead or an established depot, add to the common carrier rate applying from any team track or established depot to point of destination the rate provided in this tariff for the distance from point of origin to the team track or depot from which the common carrier rate applies. (See Notes 1, 2 and 3.) (b) When point of origin is located at railhead or an established depot and point of destination is located beyond railhead or an established depot, add to the common carrier rate applying from point of origin to any team track or established depot the rate provided in this tariff for the distance from the team track or depot to which the common carrier rate used applies to point of destination. (See Notes 1, 2 and 3.) (c) When both point of origin and point of destination are located beyond railhead or an established depot, add to the common carrier rate applying between any railheads or established depots the rate provided in this tariff for the distance from point of origin to the team track or depot from which the common carrier rate used applies, plus the rate provided in this tariff for the distance from the team track or depot to which the common carrier rate used applies to point of destination. (See Notes 1, 2 and 3.) NOTE 1.—If the route from point of origin to the team track or the established depot, or from the team track or established depot to point of destination, is within the corporate limits of a single incorporated city, the rates provided in this tariff for transportation for distances of 3 miles or less, or rates established for transportation by carriers as defined in the City Carriers' Act (Chapter 312, Statutes of 1933, as amended), whichever are the lower, shall apply from point of origin to team track or established depot or from team track or established depot to point of destination as the case may be. NOTE 2.—When a rail carload rate is subject to varying minimum weights, dependent upon the size of the car ordered or used, the lowest minimum weight obtainable under such minimum weight provisions may be used in applying the basis provided in this item. NOTE 3.—In determining the aggregate charge by railroad of transporting shipments of hay and related articles, as described in Item No. 657 series, there shall be added to the rail rate (or the combined rail and highway carrier rate) 25 cents per ton for shrinkage.
210-A Cancels 210	◆ Increase. ▲ Change, neither increase nor reduction. ○ Effective, January 10, 1940. } Decision No. 32600.
EFFECTIVE DECEMBER 25, 1939 (Except as Noted)	
Correction No. 78 Issued by The Railroad Commission of the State of California, San Francisco, California.	

Item No.	SECTION NO. 1—RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)
220	ALTERNATIVE APPLICATION OF SPLIT PICK-UP UNDER RATES CONSTRUCTED BY USE OF COMBINATIONS WITH COMMON CARRIER RATES Charges on split pick-up shipments may be computed by use of combinations with common carrier rates as follows, if a lower aggregate charge than that accruing under the basis provided in Item No. 160 results: (1) Compute the charge applicable under the rates provided in this tariff for a split pick-up shipment from the point of origin, or points of origin, of the several component parts (See Item No. 160 series) to any team track or established depot. (See Note.) (2) Add to such charge the charge applicable under Items Nos. 200 and 210 series for the weight of the composite shipment from such team track or established depot to point of destination. NOTE.—If the point of origin of any component part is within the limits of an incorporated city within which the team track or established depot is located, and no rate for transportation to the team track or established depot from such point of origin is provided in this tariff, the rates provided in this tariff for transportation for distances of 3 miles or less, or rates established for transportation by carriers as defined in the City Carriers' Act (Chapter 312, Statutes of 1935, as amended), whichever are the lower, shall apply to such team track or established depot from such point of origin.
220	ALTERNATIVE APPLICATION OF SPLIT DELIVERY UNDER RATES CONSTRUCTED BY USE OF COMBINATIONS WITH COMMON CARRIER RATES Charges on split delivery shipments may be computed by use of combinations with common carrier rates as follows, if a lower aggregate charge than that accruing under the basis provided in Item No. 170 results: (1) Compute the charge applicable under Items Nos. 200 and 210 series for the weight of the composite shipment from point of origin to any team track or established depot. (2) Add to such charge the charges provided in this tariff for a split delivery shipment (See Item No. 170 series) from such team track or established depot to the point of destination or points of destination of the several component parts. (See Note.) NOTE.—If the point of destination of any component part is within the limits of an incorporated city within which the team track or established depot is located, and no rate for transportation from the team track or established depot to such point of destination is provided in this tariff, the rates provided in this tariff for transportation for distances of 3 miles or less, or rates established for transportation by carriers as defined in the City Carriers' Act (Chapter 312, Statutes of 1935, as amended), whichever are the lower, shall apply from such team track or established depot to such point of destination.

Issued by The Railroad Commission of the State of California, San Francisco, California.	

Item No.	SECTION NO. 1—RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)
*240-B Cancels 240-A	ACCESSORIAL SERVICES NOT INCLUDED IN COMMON CARRIER RATES In the event under the provisions of Items Nos. 200 to 230 series, inclusive, a rate of a common carrier is used in constructing a rate for highway transportation, and such rate does not include accessorial services performed by the highway carrier, the following charges for such accessorial services shall be added (except as otherwise provided in connection with individual rates): (1) For tailgate loading or tailgate unloading—no additional charge (See Note 1); (2) For loading or unloading other than tailgate loading or tailgate unloading—2 cents per 100 pounds. (See Note 2); (3) For C. O. D. service—charges provided in Item No. 180 series; (4) For other accessorial services—charges provided in Item No. 140 series; (5) Split pickup or split delivery shall not be accorded unless included in the common carrier rate. (See Items Nos. 220 and 230 series for exception.) NOTE 1.—When shipments consisting in whole or in part of Oil, Water or Gas Well Outfits and Supplies, and Other Articles, as described in Item No. 365 series, moving between points located in Los Angeles and Orange counties on the one hand and points located in California, Salinas, Fresno and south thereof, on the other hand, are transported: (a) Under the provisions of Item No. 200 series, a charge of 2 cents per 100 pounds shall be added for tailgate loading, and a charge of 2 cents per 100 pounds shall be added for tailgate unloading; (b) Under the provisions of Paragraph (a) of Item No. 210 series, a charge of 2 cents per 100 pounds shall be added for tailgate unloading; (c) Under the provisions of Paragraph (b) of Item No. 210 series a charge of 2 cents per 100 pounds shall be added for tailgate loading; (d) Under the provisions of Paragraph (c) of Item No. 210 series, no additional charge shall be added for tailgate loading or tailgate unloading. NOTE 2.—For loading or unloading other than tailgate loading or tailgate unloading of Lumber and Forest Products as described in Item No. 660 series or of hay and related articles as described in Items Nos. 657 and 658 series, the charge will be one cent per 100 pounds.
	*Change, Decision No. 33768.
EFFECTIVE FEBRUARY 1, 1941	
Correction No. 174 Issued by The Railroad Commission of the State of California, San Francisco, California.	

Item No.	SECTION NO. 1—RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)
*250-A Cancels 250	◎COLLECTION OF CHARGES
	(a) Except as otherwise provided in this rule, transportation and accessorial charges shall be collected by the carriers prior to relinquishing physical possession of shipments entrusted to them for transportation.
	(b) Upon taking precautions deemed by them to be sufficient to assure payment of charges within the credit period herein specified, carriers may relinquish possession of freight in advance of the payment of the charges thereon and may extend credit in the amount of such charges to those who undertake to pay them, such persons herein being called shippers, for a period of 7 days, excluding Sundays and legal holidays other than Saturday half-holidays. When the freight bill covering a shipment is presented to the shipper on or before the date of delivery, the credit period shall run from the first 12 o'clock midnight following delivery of the freight. When the freight bill is not presented to the shipper on or before the date of delivery, the credit period shall run from the first 12 o'clock midnight following the presentation of the freight bill.
	(c) Where a carrier has relinquished possession of freight and collected the amount of charges represented in a freight bill presented by it as the total amount of such charges, and another freight bill for additional charges is thereafter presented to the shipper, the carrier may extend credit in the amount of such additional charges for a period of 30 calendar days to be computed from the first 12 o'clock midnight following the presentation of the subsequently presented freight bill.
	(d) Freight bills for all transportation and accessorial charges shall be presented to the shippers within 7 calendar days from the first 12 o'clock midnight following delivery of the freight.
	(e) Shippers may elect to have their freight bills presented by means of the United States mail, and when the mail service is so used the time of mailing by the carrier, as evidenced by the postmark, shall be deemed to be the time of presentation of the freight bills.
	(f) The mailing by the shipper of valid checks, drafts, or money orders, which are satisfactory to the carrier, in payment of freight charges within the credit period allowed such shipper may be deemed to be the collection of the charges within the credit period for the purpose of these rules. In case of dispute as to the time of mailing, the postmark shall be accepted as showing such time.
*Will not apply to the transportation of property for the United States, state, county or municipal governments. *Change, Decision No. 32964.

Item No.	SECTION NO. 1—RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)
*271 Added	TERRITORIAL DESCRIPTIONS (Continued) (Items Nos. 270 and 271 series) The following territorial descriptions apply in connection with rates making specific reference hereto: (territories include both sides of streets, boulevards, roads, avenues or highways named.) 1. BAKERSFIELD TERRITORY includes that area lying within the following boundaries: Commencing at a point 10 miles east of U. S. Highway No. 99 on the Kern County-Tulare County Boundary Line; thence southeasterly along an imaginary line paralleling U. S. Highway No. 99 to its intersection with State Highway No. 178; thence southerly along said imaginary line to its intersection with U. S. Highway No. 466 and County Road 1.7 miles east of Edison; thence southerly along said County Road to its intersection with County Road north of Arvin; thence westerly along said County Road through Weedpatch to its junction with U. S. Highway No. 99; thence southerly along U. S. Highway No. 99 to its junction with State Highway No. 166; thence westerly along State Highway No. 166 to its junction with U. S. Highway No. 399 at Maricopa; thence northwesterly along U. S. Highway No. 399 to Taft; thence northwesterly along State Highway No. 33 to its intersection with U. S. Highway No. 466 at Blackwells Corner; thence easterly along U. S. Highway No. 466 to its junction with County Road 6.2 miles east of Lost Hills; thence northerly along said County Road to its intersection with the Kern County-Kings County Boundary Line; thence easterly along the Kern County Boundary Line to point of beginning. 2. COACHELLA VALLEY TERRITORY includes that area lying between the little San Bernardino Mountains and Cottonwood Mountain on the one hand, and the San Jacinto and Santa Rosa Mountains on the other; and bounded on the northwest by Edom on U. S. Highway No. 99 and Indian Wells on State Highway No. 111, and on the southeast by the Riverside-Imperial County Line on U. S. Highway No. 99 and Southern Pacific Company station of Mortmar on State Highway No. 111. 3. IMPERIAL VALLEY TERRITORY includes that area bounded on the south by the International Boundary Line; on the east by the East High Line Canal to the point at which it intersects the main line of the Southern Pacific four miles east of Niland; on the north by the main line (transcontinental route) of Southern Pacific Company; and on the west by a series of imaginary lines drawn from Southern Pacific station of Wister to Kane Springs on U. S. Highway No. 99; thence south to Plaster City on U. S. Highway No. 80; thence south to the International Boundary Line. (Continued)
	* Change, neither increase nor reduction, Decision No. 32600. (1) For Item No. 270 series, originally carried on this page, see First Revised Page 34. EFFECTIVE DECEMBER 25, 1939 Issued by The Railroad Commission of the State of California, San Francisco, California. Correction No. 85

Item No.	SECTION NO. 1—RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)
*271 Added	TERRITORIAL DESCRIPTIONS (Concluded) (Items Nos. 270 and 271 series) 4. LANCASTER TERRITORY includes that area lying within the following boundaries: Commencing at a point 10 miles east of Mojave on U. S. Highway No. 400; thence southerly along an imaginary line paralleling State Highway No. 7, passing through Redman to Littlerock; northwesterly along State Highway No. 128 from Littlerock through Palmdale and Elizabeth Lake to its intersection with the Los Angeles Aqueduct, northeasterly along the Los Angeles Aqueduct to its intersection with U. S. Highway No. 400, thence southeasterly along U. S. Highway No. 400 to point of beginning. 5. LOS ANGELES-HYDES TERRITORY includes that area embraced by the following: Commencing at the point where State Highway No. 27 (Topanga Canyon Road) meets the Pacific Ocean; thence northerly along said highway through Glard until it intersects Los Angeles City Boundary Line approximately two miles north of Chatsworth; thence northeasterly following said boundary line until it meets the southern boundary of the Angeles National Forest at a point approximately two miles west of Olive View Sanitarium; thence easterly following said Angeles National Forest boundary until it intersects State Highway No. 39 (San Gabriel Forest Highway) north of Azusa; thence southerly on said Highway No. 39 (variously called Azusa Avenue, Glendora Avenue, La Habra Road, and Huntington Beach Boulevard) and passing through Puente and Buena Park to its meeting with the Pacific Ocean at Gamewell 1.6 miles southeast of Huntington Beach; thence northwesterly following the coast line to point of beginning. 6. SALTON SEA TERRITORY includes that area lying directly between the Coachella and Imperial valleys, as these latter are defined above. 7. SAN DIEGO TERRITORY includes that area embraced by the following imaginary line starting at the northerly junction of U. S. Highways 101E and 101W (4 miles north of La Jolla); thence easterly to Miramar on State Highway No. 336; thence southeasterly to Lakeside on the El Cajon-Ramona Highway; thence southerly to Bostonia on U. S. Highway No. 80; thence southeasterly to Jamul on State Highway No. 94; thence due south to the International Boundary Line, west to the Pacific Ocean and north along the coast to point of beginning.
	* Change, neither increase nor reduction, Decision No. 32009.

Correction No. 86	Issued by The Railroad Commission of the State of California, San Francisco, California.

Item No.	SECTION NO. 1—RULES AND REGULATIONS OF GENERAL APPLICATION (Continued)						
	EXCEPTIONS TO WESTERN CLASSIFICATION AND EXCEPTION SHEET						
	RULES						
	Rates in this tariff are not subject to the provisions of the following rules of the Western Classification:						
	1	7	13	24	30	37	42
	3	8	14	26	31	38	43
	4	9	15	27	32	39	44
	5	10	16	28	34	40	47
280	6	11	23	29	35	41	
	Rates in this tariff are not subject to the provisions of the following rules of the Exception Sheet:						
	10	35	50	65	110	145	165
	15	38	55	75	115	150	168
	20	40	60	78	120	155	170
	25	42	61	100	125	160	175
	30	45	62	105	140	161	180
	RATINGS						
	Except as otherwise provided in this Section, class rates contained in Sec- tion No. 2 are subject to any quantity, less-carload and carload ratings (includ- ing minimum weights) as shown in the Western Classification and Exception Sheet. (See Exception.)						
290	EXCEPTION.—When the carload minimum weight provided in con- nection with ratings in the Western Classification or Exception Sheet exceeds 36,000 pounds, the minimum weight shall be considered as being 36,000 pounds for the purpose of applying rates in Section No. 2 of this tariff.

	Correction No. 104	

Item No.	SECTION NO. 3	COMMODITY RATES (Continued)
	(Applies in connection with rates making specific reference hereto.)	
	GRAIN, GRAIN PRODUCTS AND RELATED ARTICLES, viz.:	
	Flour, viz.: Bean, Potato, Rice, Flour, prepared, edible, manufactured from one or more articles shown under head of "Grain" in Item No. 652 series, or Rice Flour, with not to exceed 30% of other ingredients,	
653 12-25-39	Split Peas, Whole Peas, Lentils, Tapioca, Sago, Macaroni, Noodles, Spaghetti, Vermicelli,	Not fully cooked or ready for human consumption
	Cake or Meal, sweetened or unsweetened, viz.:	Provided weight does not exceed 15% of total weight of shipment.
	Babassu Nut, Copra (Cocoanut), Corn Germ, Cottonseed, Flaxseed (Linseed), Hemp Seed, Kapok Seed,	Palm, Palm Kernel, Peanut, Perilla, Perilla Seed, Rape Seed, Safflower Seed, Sesame Seed, Soya Bean, Sunflower Seed, Tucum Nut, Velvet Bean.
	APPLICATION OF RATES IN ITEMS MAKING SPECIFIC REFERENCE HERETO	
	(a) Rates include services of driver and one helper to perform loading, unloading, or other accessorial services.	
	(b) Demurrage shall be computed in accordance with the provisions of Note 1, Item No. 120 series.	
653 1/2-A Cancels 653 1/2	▲ (c) Rates are not subject to the provisions of Items Nos. 110 or 120 series.	
	(d) Pickups Following Harvesters: (Will not apply in connection with rates in Item No. 656 series). When pickups are made from several points in one field, at which points the commodities have theretofore been deposited by the harvester, the point of origin will be deemed to be the point at which the load is completed. A charge of \$2.00 per hour shall be assessed for the aggregate time in excess of 20 minutes per ton consumed in performing such pickups.	
	(e) Premiums and Advertising Matter: The rates on articles in packages containing premiums shall be 110 per cent of the rates applicable to the same articles without premiums. Advertising matter, not to exceed 5 per cent of the gross weight of the shipment, may be included at the rate applicable to the lowest rated article in the shipment.	
	▲ Change, neither increase nor reduction, Decision No. 33738.	
	EFFECTIVE FEBRUARY 1, 1941	
	Issued by The Railroad Commission of the State of California, San Francisco, California.

HIGHWAY CARRIERS' TARIFF NO. 2

Item No.	SECTION NO. 4	ROUTING
900-A Cancels 900 8-7-30	When applied via the following highway routes, rates making specific reference to this item are intermediate in application. They apply at all points located within a distance of one mile on either side of the highway and at all points located within incorporated cities through which the highway route passes. (The following routes apply in either direction) Route No. 1: From San Francisco Territory, as described in Item No. 270 series, via U. S. Highway No. 40 to Crockett, State Highway No. 4 to its junction with County Road 1.4 miles north of Byron, said County Road through Byron to its junction with U. S. Highway No. 50 3.9 miles west of Tracy, U. S. Highway No. 50 to its junction with State Highway No. 120 5.0 miles west of Manteca, State Highway No. 120 to Manteca, thence via U. S. Highway No. 99 to Los Angeles Territory or to Los Angeles Basin Territory. Route No. 2: From San Francisco Territory, as described in Item No. 270 series, via U. S. Highway No. 50 to its junction with State Highway No. 120 5.0 miles west of Manteca, State Highway No. 120 to Manteca, thence via U. S. Highway No. 99 to Los Angeles Basin Territory, as described in Item No. 270 series. Route No. 3: From San Francisco Territory, as described in Item No. 270 series, via Niles Canyon Highway through Sunol, Pleasanton and Livermore to its junction with U. S. Highway No. 50 east of Livermore, U. S. Highway No. 50 to its junction with State Highway No. 120 5.0 miles west of Manteca, State Highway No. 120 to Manteca, thence via U. S. Highway No. 99 to Los Angeles Territory or to Los Angeles Basin Territory. Route No. 4: From San Francisco Territory, as described in Item No. 270 series, via U. S. Highway No. 101 to Gilroy, State Highway No. 152 through Los Banos to its junction with U. S. Highway No. 99 north of Madera, thence via U. S. Highway No. 99 to Los Angeles Territory or to Los Angeles Basin Territory. Route No. 5: From Sacramento (see Item No. 260 series) via U. S. Highway No. 99 to Los Angeles Basin Territory, as described in Item No. 270 series. Route No. 6: From San Francisco Territory, as described in Item No. 270 series, via U. S. Highway No. 101 to its junction with State Highway No. 118 4.0 miles southeast of Ventura, thence via (a) State Highway No. 118 through Chatsworth, or (b) U. S. Highway No. 101 through Girard, or (c) U. S. Highway No. 101 to its junction with U. S. Highway No. 101, Alternate, at El Rio, thence via U. S. Highway No. 101, Alternate, through Orndart to Los Angeles Basin Territory as described in Item No. 270 series. Route No. 7: From San Francisco Territory, as described in Item No. 270 series, via Routes 1, 2 or 3 to the junction of U. S. Highway No. 50 and State Highway No. 33, 3 miles east of Tracy; thence via State Highway No. 33 to Los Banos; thence via State Highway No. 152 to its junction with U. S. Highway No. 99 north of Madera; thence via Route 1, 2 or 3 beyond. END OF TARIFF

Decision No. 31091

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Establishment of Maximum or Minimum, or Maximum and Minimum rates, rules and regulations of all Radial Highway Common Carriers and Highway Contract Carriers operating motor vehicles over the public highways of the State of California, pursuant to Chapter 223, Statutes of 1935, for the transportation for compensation or hire of any and all commodities and accessorial services incident to such transportation.

Case
No. 4038
Part "N"

In the Matter of the Investigation and Establishment of rates, charges, classifications, rules, regulations, contracts and practices, or any thereof, of Common Carriers of property.

Case
No. 4145

In the Matter of the Establishment of Maximum or Minimum, or Maximum and Minimum rates, rules and regulations of all Common Carriers, as defined in the Public Utilities Act of the State of California, as amended, and all Highway Carriers as defined in Chapter 223, Statutes of 1935, as amended, for the transportation for compensation or hire of any and all commodities.

Case
No. 4246

BEFORE THE
RAILROAD COMMISSION
OF THE
STATE OF CALIFORNIA

In the Matter of the Petition of the Southern California Edison Company for the determination of its constructive mileage for the purpose of the Public Utilities Act of the State of California, Chapter 883, Statutes of 1937, for the transportation of passengers and property, and for the determination of its constructive mileage for the purpose of the Public Utilities Act of the State of California, Chapter 883, Statutes of 1937, for the transportation of passengers and property, and for the determination of its constructive mileage for the purpose of the Public Utilities Act of the State of California, Chapter 883, Statutes of 1937, for the transportation of passengers and property.

In the Matter of the Petition of the Southern California Edison Company for the determination of its constructive mileage for the purpose of the Public Utilities Act of the State of California, Chapter 883, Statutes of 1937, for the transportation of passengers and property, and for the determination of its constructive mileage for the purpose of the Public Utilities Act of the State of California, Chapter 883, Statutes of 1937, for the transportation of passengers and property.

In the Matter of the Petition of the Southern California Edison Company for the determination of its constructive mileage for the purpose of the Public Utilities Act of the State of California, Chapter 883, Statutes of 1937, for the transportation of passengers and property, and for the determination of its constructive mileage for the purpose of the Public Utilities Act of the State of California, Chapter 883, Statutes of 1937, for the transportation of passengers and property.

(STATEMENT OF CONSTRUCTIVE MILEAGE)

This record leads to the conclusion that the constructive mileages, maps, rules and regulations set forth in Appendix "A" attached hereto, should be approved as part of the Order of this Commission.

FINDINGS

Based upon the evidence introduced in these proceedings, in so far as it relates to constructive mileage, the Commission makes the following findings of fact:

1. That the plan or method for the determination of constructive mileage set forth in Findings (1) and (2) in Decision No. 30000, dated August 9, 1937 (as shown in footnote 3 on page 4 hereof), should be approved and adopted.
2. That the mileages, maps, rules and regulations set forth in the Distance Table, designated as Appendix "A" attached hereto and made a part hereof, compiled in accordance with the plan or method for the determination of constructive mileage more specifically set forth and approved by the Commission in Decision No. 30000, dated August 9, 1937, are in all respects just, reasonable, and nondiscriminatory.
3. That the mileages, maps, rules and regulations set forth in the Distance Table, designated as Appendix "A" attached hereto and made a part hereof, should be declared to be the constructive mileages, maps, rules and regulations to be used in the determination of the constructive highway mileages between points within the State of California.

SUPPLEMENTAL ORDER

Public hearings having been held in the above-entitled proceedings on the subject of constructive mileage, and the matter being now ready for decision

IT IS HEREBY ORDERED:

1. That the plan or method for the determination of constructive mileage set forth in Findings (1) and (2) in Decision No. 30000, dated August 9, 1937 (as shown in footnote 3 on page 4 hereof), be and it is hereby approved and adopted.
2. That the mileages, maps, rules and regulations set forth in the Distance Table, designated as Appendix "A" attached hereto and made a part hereof, are approved and hereby declared to be the constructive highway mileages, maps, rules and regulations to be used in

*Appendix "A" attached hereto, contains the following:

- Section 1. Rules and Regulations which include:
 - (a) Mileage Starting points.
 - (b) Description of Los Angeles Zones.
- Section 2. Constructive mileage between ten main points and various other points within the State of California.
- Section 3. Constructive mileage between various points in the State of California.
- Section 4. (a) Northern California Constructive Mileage Map.
 (b) Central California Constructive Mileage Map.
 (c) Southern California Constructive Mileage Map.

the determination of the constructive highway mileages between points within the State of California.

3. That effective February 15, 1939, and except as provided in ordering paragraph No. 1, Decisions Nos. 29253, 30000 and 30638, in Case No. 4088, Part "N", be and they are hereby revoked insofar as they relate to Decision No. 30085, as amended, in Cases Nos. 4079 and 4191, Decision No. 31469, as amended, in Case No. 4249, Decision No. 30818, as amended, in Case No. 4293, and Decision No. 30640, as amended, in Case No. 4088, Part "F", and Case No. 4118.

4. That except as provided in ordering paragraphs Nos. 1 and 3, Decisions Nos. 29253, 30000 and 30638, in Case No. 4088, Part "N", be and they are hereby revoked effective ninety (90) days after the effective date of this order.

5. That the Commission shall have, and it does hereby retain, jurisdiction over these proceedings, and each of them, to alter or amend the minimum rates, charges, classifications, rules, regulations and constructive highway mileages hereby or heretofore established, and also to establish or approve such other just, reasonable, and non-discriminatory maximum and minimum or maximum or minimum rates and charges required to be charged and collected, and classifications, rules and regulations to be observed by radial highway common carriers, highway contract carriers, and common carriers, both for transportation service hereinabove described and for such other transportation and accessorial service as may from time to time appear proper in the light of other or further evidence received in said proceedings.

This order shall become effective February 15, 1939.

Dated at San Francisco, California, this 27th day of December, 1938.

RAY C. WAKEFIELD,
LEON O. WHITSELL,
FRANK R. DEVLIN,
RAY L. RILEY,
CARL C. BAKER,
Commissioners.

By order of the Commission, I hereby certify that the foregoing is a true and correct copy of the original of the order of the Commission.

Decision No. 31605

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Establishment of maximum or minimum, or maximum and minimum rates, rules and regulations of all Radial Highway Common Carriers and Highway Contract Carriers operating motor vehicles over the public highways of the State of California, pursuant to Chapter 223, Statutes of 1935, for the transportation for compensation or hire of any and all commodities and accessorial services incident to such transportation.

Case No. 4088
Part "N"

In the Matter of the Investigation and Establishment of rates, charges, classifications, rules, regulations, contracts and practices, or any thereof, of Common Carriers of property.

Case No. 4145

In the Matter of the Establishment of maximum or minimum, or maximum and minimum rates, rules and regulations of all Common Carriers, as defined in the Public Utilities Act of the State of California, as amended, and all Highway Carriers as defined in Chapter 223, Statutes of 1935, as amended, for the transportation for compensation or hire of any and all commodities.

Case No. 4246

(ESTABLISHMENT OF CONSTRUCTIVE MILEAGE).

By the Order in said Decision No. 30000, the Commission prescribed a method of determining constructive mileage, and also approved the system of proposed constructive mileage, so determined, as set forth on the map attached to and made a part of said decision. There are shown upon this map the assigned constructive mileages between all incorporated cities of the state as well as between many unincorporated points.

Decision No. 30000 was supplemented by Decision No. 30638. In the latter decision constructive mileages were assigned to certain highways in addition to those shown on the map accompanying Decision No. 30000. In addition rules were prescribed for determining constructive mileage to points not shown on this map.

At the time these decisions were issued, it was contemplated that the system of highways for which constructive mileages had been determined, would be expanded to include the less important public

The findings in Decision 30000, dated August 9, 1917, which established the plan or method for the determination of constructive mileage, were as follows:

(1) That the plan or method more specifically set forth herein in the determination of constructive mileage is, in all respects, just, reasonable, and non-discriminatory.

(2) A. That constructive mileage ratios between the practical average limits of operations, from 1 to 22.5 M.P.H., should be determined and the determination of these ratios by the Commission's staff shall be deemed prima facie correct by employing the following formula, which is discussed herein:

$$\text{Constructive Mileage Ratio} = \frac{(22.5 - \text{speed in M.P.H.})}{22.5} + 1$$

B. That the constructive mileage between any two or more controlling points on the highway should be determined by multiplying the corresponding highway mileage by the constructive mileage ratio, determined as provided for herein and based upon the physical conditions obtaining.

C. That the constructive mileage ratios shown in Table No. 1* (see below) of the preceding opinion for the corresponding differences in elevation in feet per mile of highway are fair and reasonable for the purpose of determining rates which are based upon the length of haul.

TABLE NO. 1

Tabulation Showing Constructive Mileage Ratios for Various Highway Grades, Expressed in Terms of Difference in Elevation in Feet per Mile, Between the Ends of the Section under Consideration.

Diff. in Elev. per Mile (feet)	Const. Mileage Ratio	Diff. in Elev. per Mile (feet)	Const. Mileage Ratio

roads. The record now before us justifies a substantial expansion of the constructive mileage system by the addition of constructive mileages for new highways and additional points and the establishment of zones for the metropolitan Los Angeles area. The evidence relating to the expanded highway system of the State for which constructive mileages have been recommended, is set forth on maps dividing the State into three portions and introduced as the Commission's Exhibits Nos. N-19, N-20, and N-21, which were augmented by tabulations introduced as Commission's Exhibits Nos. N-19-A, N-20-A, and N-21-A. The method or plan for the determination of constructive mileage provided in Decision No. 30000 was adhered to in the preparation of these exhibits.

Subsequent to the issuance of said Decisions Nos. 30000 and 30638, certain reductions were made in the fares of the toll bridges and ferries as well as a reduction in the number of ferry routes in the San Francisco Bay area. With these reductions in fares and service, it becomes necessary to revise the constructive mileages for these various avenues of traffic, since the constructive mileage is based upon the cost of transportation. The Commission's Exhibits Nos. N-22-A and N-22-B set forth proposed revised constructive mileages for the various toll bridge and ferry routes now available. Some criticism was offered as to the load factor employed by the Commission's engineers in determining these constructive mileages. Exhibit No. N-23, introduced by a representative of the San Francisco Chamber of Commerce, proposes a much lighter load per vehicle than that employed by the Commission's staff. A study of this exhibit reveals the fact that the mileage so developed is inconsistent with the actual toll charges.

Aside from making certain allowances for standing time for trucks while waiting for ferry boats, the record does not justify any changes in the proposed constructive mileages as set forth in Exhibits N-22-A and N-22-B.

Hitherto a single mileage point has been used for the entire area of an incorporated city in the application of constructive mileage.

The following quotation is from Decision No. 30000:

"By this Order the Commission approves the work thus far accomplished in the way of fixing reasonable constructive mileages for the network of highways shown on the map which includes the highway system of this State (city, county, and state roads), over which there is any material volume of for hire trucking now conducted. To determine immediately the proper constructive mileages for all of the remaining highways of this State which are more or less unimportant, from a for hire trucking standpoint, would require considerable time as well as involving a substantial expense. With the system of highways for which constructive mileages have been prescribed as set forth on the map, the shortest constructive mileage distance between all incorporated cities, as well as most of the unincorporated communities of this State, can be determined based upon the highways now commonly used in for hire trucking operations. It is expected that the Commission will expand its constructive mileage study to cover other highways than those shown on the map, such work to be carried on as rapidly as conditions appear to warrant and the work can be reasonably undertaken."

All of the Exhibits introduced by the Commission's engineering staff were presented by Transportation Engineer Ward Hall.

This practice is not satisfactory in the case of the City of Los Angeles, due to the fact that the city covers a large area extending from San Fernando Valley on the north to the Harbor on the south, a distance of some 50 miles, and is surrounded by a number of incorporated cities. It appears appropriate that the Los Angeles metropolitan area should be considered as a whole rather than by city boundaries and the entire area zoned for the purpose of determining constructive mileage. The zones proposed by the Commission's engineers are shown on Exhibits Nos. N-16, N-17, and N-18, which were later supplemented by Exhibits Nos. N-16-A, N-16-B, N-18-A, and N-23. The only other evidence offered on this subject dealt with the matter of dividing the proposed Zone 1, the central business and industrial district of Los Angeles, into two portions. A review of this phase of the record leads to the conclusion that it has not been shown that Zone 1, as proposed by the Commission's staff, should be divided into two parts.

Following the completion of the hearings there was issued a Proposed Report by Examiner J. G. Hunter, with an invitation to the interested parties to offer suggestions or criticisms. Only four such exceptions were filed. Three of these suggested certain changes in the proposed constructive mileage for the San Francisco-Oakland Bay Bridge, Carquinez Bridge, and the Oakland Pier Route of Southern Pacific Golden Gate Ferries, Ltd. The fourth exception dealt with the proposed constructive mileage for the road between Fort Bragg and U. S. Highway No. 101 via Rockport. The Commission is of the opinion that there has been nothing offered in these exceptions which justifies a modification of the Examiner's proposed report in so far as it deals with mileages to compensate for bridge and ferry tolls. In the case of the exception with respect to the Rockport road, it appears that the constructive mileage as set forth in the Examiner's Report should be materially reduced, as urged in the exception.

A careful review of this record leads to the conclusion that the most practical method of prescribing constructive mileages to be used in connection with rates determined by the Commission governing the transportation of freight by carriers operating under the Commission's jurisdiction, is to issue a distance table that will conform to established practices in tariff compilation. From the basic data contained in this record on the subject of constructive mileage there has been prepared a loose-leaf table, Appendix "A," which is attached hereto and made a part of this Order, setting forth the constructive mileages between 323 headline and 323 sideline points in the State. This table also contains the constructive mileage maps and the rules and regulations necessary to determine the constructive mileage between any two points within the State.

APPEARANCES

A complete list of Appearances in these proceedings is contained in Appendix "A" of Decision 31000, dated December 27, 1938.

BY THE COMMISSION:

SUPPLEMENTAL OPINION

These proceedings were instituted by the Commission on its own motion for the purpose, among other things, of prescribing constructive mileages for the highway system of the State of California on a more comprehensive basis than that which is encompassed by the orders now outstanding on this subject. Further evidence was received at hearings held before Examiner Hunter at Los Angeles on March 1st and August 3rd, 1938, and at San Francisco on August 4th and 18th, 1938.

The establishment of constructive mileages was first considered by the Commission in Case No. 4088, Part "N," which is devoted exclusively to that subject. At the hearing held in Los Angeles on March 1st, 1938, it was ordered that the record in Case No. 4088, Part "N," be considered by reference as part of the record in Case No. 4145, and likewise, at hearings held in Los Angeles on August 3rd, 1938, and San Francisco on August 4th, 1938, it was ordered that the record in Case No. 4088, Part "N," and the record in Case No. 4145 adduced at the hearing on March 1st, 1938, and the entire record in Case No. 4088, Part "N," be considered by reference as part of the record in Case No. 4246. The evidence relating to the establishment of constructive mileage was received on a consolidated record in the three cases involved herein at the hearings of August 3rd, 4th, and 18th, 1938.

A number of public hearings were held in Case No. 4088, Part "N," at both San Francisco and Los Angeles. This record contains a number of studies outlining methods of determining constructive mileages for the various highways of the State over which for-hire trucking operations are conducted, which equitably reflect the effect of the physical condition of the highways upon truck operating costs. These studies include field checks, analysis of operating schedules of various carriers engaged in for-hire trucking, as well as cost studies for various loads and speed of operation. It is upon this record that the Commission issued its order in Decision No. 30000.

¹ The term "constructive mileage," as used herein, means an increased mileage obtained by adding an increment to the actual highway mileage. This increment is intended to compensate for adverse physical conditions of the highway, such as grades, curvatures, poor surface, and congestion which add to the cost of truck operation over and above the normal expense encountered in operating over highways without such adverse physical conditions.

² Decision No. 29253, dated November 9, 1936. Decision No. 30000, dated August 9, 1937. Decision No. 30635, dated February 14, 1938.

ITEM No.	SECTION 1																				
10	RULES AND REGULATIONS																				
	RULE I																				
	The constructive mileage between any two points appearing on the maps in Section 4 shall be the shortest constructive mileage between said points as shown on said maps; however, if a different mileage between said points is shown in Sections 2 or 3 such different mileage shall apply.																				
	RULE II																				
	When it becomes necessary to determine the constructive mileage to or from a point not shown on the maps in Section 4, but located on the system of highways shown on said maps, the constructive mileage from said point to the first point passed through, which appears on said maps or from the last point passed through, which appears on said maps to said point, as the case may be, shall be the actual highway mileage.																				
	RULE III																				
	When it becomes necessary to determine the constructive mileage to or from a highway point not on the system of highways shown on the maps in Section 4, the constructive mileage between said point and the first point appearing on said maps passed through after connection with, or the last point appearing on said maps passed through before divergence from, the system of highways as shown on said maps, shall be the actual highway mileage.																				
	RULE IV																				
	When it becomes necessary to determine constructive mileages to or from highway points, not already provided for in Rules I, II or III, the constructive mileage shall be the actual highway mileage.																				
	RULE V																				
	When it becomes necessary to determine the constructive mileage to or from a rail point not located upon any highway, the constructive mileage between said point and the first point appearing on the maps in Section 4, passed through after connection with, or the last point appearing on said maps passed through before divergence from, the system of highways as shown on said maps, shall be the actual rail mileage.																				
	RULE VI																				
	When it becomes necessary to determine constructive mileages not already provided for in Rule V, to or from rail points not located upon any highway, the constructive mileage shall be the actual rail mileage.																				
	RULE VII																				
	(a) The constructive mileage from or to all points located within an incorporated city shall be computed from or to the triangle circumscribed by a circle that bears the corporate name as shown on the map, subject, however, to the following exception:																				
	The circumscribed triangle to be used to determine mileages from or to points within the zones prescribed for metropolitan Los Angeles in Item 20 series shall be as follows:																				
	<table> <tbody> <tr> <td>Zone 1—Los Angeles</td> <td>Zone 11—Glendale</td> </tr> <tr> <td>Zone 2—Canoga Park</td> <td>Zone 12—Highland Park</td> </tr> <tr> <td>Zone 3—San Fernando</td> <td>Zone 13—Venice</td> </tr> <tr> <td>Zone 4—Sunland</td> <td>Zone 14—Culver City</td> </tr> <tr> <td>Zone 5—Van Nuys</td> <td>Zone 15—El Segundo</td> </tr> <tr> <td>Zone 6—Rossmore</td> <td>Zone 16—Inglewood</td> </tr> <tr> <td>Zone 7—North Hollywood</td> <td>Zone 17—Lynwood</td> </tr> <tr> <td>Zone 8—Santa Monica</td> <td>Zone 18—Gardena</td> </tr> <tr> <td>Zone 9—West Los Angeles</td> <td>Zone 19—Torrance</td> </tr> <tr> <td>Zone 10—Hollywood</td> <td>Zone 20—Wilmington</td> </tr> </tbody> </table>	Zone 1—Los Angeles	Zone 11—Glendale	Zone 2—Canoga Park	Zone 12—Highland Park	Zone 3—San Fernando	Zone 13—Venice	Zone 4—Sunland	Zone 14—Culver City	Zone 5—Van Nuys	Zone 15—El Segundo	Zone 6—Rossmore	Zone 16—Inglewood	Zone 7—North Hollywood	Zone 17—Lynwood	Zone 8—Santa Monica	Zone 18—Gardena	Zone 9—West Los Angeles	Zone 19—Torrance	Zone 10—Hollywood	Zone 20—Wilmington

SECTION 1

RULES AND REGULATIONS—Continued

RULE VII—Continued

10
(Continued)

(b) The constructive mileage from or to all points located in other communities within a radius of one mile of an established railroad depot, or, if there be no such depot, then within a radius of one mile of the Post Office, or, if there be no such Post Office, within a radius of one mile of the center of the community, shall be computed from or to such depot, Post Office, or center of the community, as the case may be.

NOTE: "A point (or points) appearing on the maps in Section 4" means any city, town, or place designated upon said maps by a triangle circumscribed by a circle, also any intersection or junction designated upon said maps by a triangle.

MILEAGE STARTING POINTS

RULE VIII

(a) The mileage starting points designated upon the maps in Section 4 by a circumscribed triangle for the communities listed below, shall be as follows:

20

INDEX No.	COMMUNITY	STARTING POINT
955	Alameda	Park and Central Avenues
980	Albany	San Pablo and Solano Avenues
465	Alhambra	Garfield Avenue and Main Street
1225	Alturas	North Main and North Streets
75	Alviso	Taylor and El Dorado Streets
1125	Amador City	Bear Rt. 49 at Angle Point
445	Anaheim	Lincoln and Los Angeles Streets
915	Angels Camp	Junction Bear Rt. 49 and Bear Rt. 4
945	Antioch	3rd and G Streets
630	Arcadia	Junction U. S. Rt. 66 and 1st Street
1285	Arcata	Plaza
175	Arroyo Grande	U. S. Rt. 101 and Carpenter Canyon Road
55	Atherton	U. S. Rt. 101 and Fair Oaks Lane
765	Atwater	U. S. Rt. 99 and 3rd Street
1165	Auburn	High and Lewis Streets
640	Azusa	Junction U. S. Rt. 66 and Azusa Avenue
880	Bakersfield	18th and Union (U. S. Rt. 99)

Decision No. 32611

BEFORE THE
RAILROAD COMMISSION
OF THE
STATE OF CALIFORNIA

In the Matter of the Establishment of Maximum or Minimum, or Maximum and Minimum rates, rules and regulations of all Radial Highway Common Carriers and Highway Contract Carriers operating motor vehicles over the public highways of the State of California, pursuant to Chapter 223, Statutes of 1935, for the transportation for compensation or hire of any and all commodities and accessorial services incident to such transportation.

Case No. 4088
Part "N"

In the Matter of the Investigation and Establishment of rates, charges, classifications, rules, regulations, contracts and practices, or any thereof, of Common Carriers of property.

Case No. 4145

In the Matter of the Establishment of Maximum or Minimum, or Maximum and Minimum rates, rules and regulations of all Common Carriers, as defined in the Public Utilities Act of the State of California, as amended, and all Highway Carriers as defined in Chapter 223, Statutes of 1935, as amended, for the transportation for compensation or hire of any and all commodities.

Case No. 4246

REPORT
RAILROAD COMMISSION
OF THE
STATE OF CALIFORNIA

In the Matter of the Establishment of Maximum or Minimum or Maximum and Minimum rates, rules and regulations of all Public Highway Carriers operating over the public highways of the State of California pursuant to Chapter 883, Statutes of 1937 for the transportation for compensation of any and all commodities and persons or goods and all commodities and persons or goods subject to such transportation.

In the Matter of the Investigation and Establishment of rates, charges, classifications, rules, regulations, conditions and practices or any thereof of Common Carriers of property.

In the Matter of the Establishment of Maximum or Minimum or Maximum and Minimum rates, rules and regulations of all Common Carriers as defined in the Public Utilities Act of the State of California, as amended, and all Highway Carriers as defined in Chapter 883, Statutes of 1937, as amended, for the transportation for compensation of any and all commodities and persons or goods and all commodities and persons or goods subject to such transportation.

(Establishment of Constructive Mileage)

By THE COMMISSION:

THIRD SUPPLEMENTAL ORDER

The Commission's Order in its Decision No. 31605, dated December 27, 1938, as amended by Decision No. 31991 of May 9, 1939, in the above-entitled cases dealt with the matter of determining constructive mileages for the public highways of the State of California. This order, among other things, prescribed mileage zones for metropolitan Los Angeles, as set forth in Distance Table No. 3, designated as Appendix "A" attached thereto and made a part thereof.

It has now developed that certain changes should be made in this Distance Table, therefore

Good Cause Appearing

IT IS HEREBY ORDERED that the First Revised pages attached hereto and made a part hereof shall cancel and supersede original pages of Distance Table No. 3, designated as Appendix "A" attached to and made a part of Decision No. 31605, as shown hereunder.
