Application No. 20629

BY THE COMMISSION:

FIFTH SUPPLEMENTAL OPINION AND ORDER

By Decision No. 29105 of September 14, 1936, as amended, in this proceeding, J. A. Clark Draying Company, Ltd., a highway contract and city carrier, was authorized to transport specified iron and steel articles under contract with Columbia Steel Company at rates less than the established minimum rates. This authority was limited to a designated area in and around Los Angeles. It expired May 23, 1941. By supplemental application filed July 7, 1941, reestablishment of the authority is sought. It is alleged that operating conditions have not changed materially since the original authority was granted, and that during its effectiveness rates charged thereunder returned a satisfactory profit.

It appears that this is a matter in which a public hearing is not necessary and that the supplemental application should be granted. Due, however, to the possibility that the conditions under which this service is rendered may change at any time the authority will be limited to a one-year period.

Therefore, good cause appearing,

IT IS HEREBY ORDERED that J. A. Clark Draying Company, Ltd., be and it is hereby authorized to transport iron and steel articles as specified in Decision No. 29105 of September 14, 1936,

in the above entitled application, under contract with Columbia Steel Company, at rates less than the established minimum rates but not less than the rates set forth in Appendix "A" of said Decision No. 29105.

This authority shall expire one (1) year from the effective date of this order unless sooner changed, canceled or extended by appropriate order of the Commission.

This order shall become effective on the date hereof.

Dated at San Francisco, California, this 8<sup>th</sup> day of July, 1941.
