Decision No. 24902

BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of
SAN DIEGO GAS & ELECTRIC COMPANY, a
corporation, for authority to enter
into a contract with the Federal
Works Agency for electric service at
Defense Housing Project Cal-4096

Application No. 24683

BY THE COMMISSION:

OPINION AND ORDER

San Diego Gas and Electric Company seeks authority to enter into a written contract with the United States Government through the Federal Works Agency covering the supply of electric energy to a 1,000 unit defense housing project at San Diego, designated as Cal-4096, for street lighting purposes.

The contract, a copy of which is attached to the application and marked Exhibit A, is for an initial period of one year and thereafter from year to year until terminated by either party by giving 30 days' written notice to the other. The rates, terms and conditions therein are in accordance with the rates, rules and regulations of Applicant now on file with this Commission, and it contains a provision that any increase or decrease in Applicant's rates, if applicable to the service supplied thereunder, may be made effective for such service by proper amendment to the contract.

It is noted, however, that reference to this Commission's jurisdiction has been omitted from the contract and the Commission at this time calls to the attention of both parties to the contract the fact that each may expect the Commission to continue to exercise its jurisdiction over the rates, conditions and terms of service rendered thereunder in accordance with the statutes.

The Commission having considered the request of Applicant and it being of the opinion that the application should be granted, that a public hearing in the matter is not necessary, and good cause appearing, therefore,

IT IS ORDERED that San Diego Gas and Electric Company is hereby authorized to enter into that certain proposed contract with the United States Government attached to this application and marked Exhibit A and to render electric service to the defense housing project designated as Cal-4096 at the rates and under the terms and conditions set forth in said contract.

San Diego Gas and Electric Company shall file two copies of the contract with this Commission within thirty days after its execution.

The effective date of this Order shall be the date hereof.

Dated at San Francisco, California, this 6th day of January, 1942.
