Case No. 4121

BY THE COMMISSION:

SUPPLEMENTAL OPINION

An adjourned hearing was held in this proceeding before Examiner Bryant in Los Angeles on February 10, 1942, for the purpose of affording a hearing herein to certain highway carriers and city carriers who had not previously had an opportunity to be heard respecting the subject matter of this proceeding. Minimum rates and rules and regulations applicable to all other highway carriers and city carriers have heretofore been established herein by Decision No. 32504, as amended.¹ The parties for whom this hearing was held include those who first obtained permits as radial highway common carriers, highway contract carriers or city carriers between June 15, 1941 and January 23, 1942, inclusive, and radial highway common carriers, highway contract carriers and city carriers named in Appendix "C" hereof. The record shows that the order instituting

¹ By Decision No. 32504 of October 24, 1939, the Commission issued in loose-leaf tariff form minimum rates and rules and regulations for the transportation of property within Los Angeles County by radial highway common carriers, highway contract carriers and carriers as defined in Chapter 312, Statutes 1935, as amended, (herein referred to as "city carriers"), which rates, rules and regulations were originally established by Decision No. 30600 of February 7, 1938, as modified, supplemented and amended. The tariff above referred to, entitled City Carriers' Tariff No. 4 and Highway Carriers' Tariff No. 5 was attached to said Decision No. 32504 as Appendix "A" thereof. Decision No. 32504 has been subsequently modified, supplemented, and amended from time to time and now and revised pages incorporating such changes in the tariff have been issued.

investigation herein was duly served on and notice of said hearing duly given all such carriers.

Evidence was introduced at the hearing based upon studies of rates and costs of operation, that the minimum rates and charges and the rules and regulations established by said Decision No. 32504, as amended, and as set forth in City Carriers' Tariff No. 4 and Highway Carriers' Tariff No. 5, supplemented, amended and modified, are just, reasonable and nondiscriminatory for all highway carriers and city carriers, including those carriers hereinabove referred to as well as those previously subject thereto. No criticism was made of the propriety of those minimum rates and charges, rules and regulations and no reason was advanced why they should not be applied as minimum by said carriers. The minimum rates and charges and rules and regulations contained in said City Carriers' Tariff No. 4 and Highway Carriers' Tariff No. 5 are based upon favorable conditions affecting the various types of operation and appear to be equally proper for the carriers for whom this hearing was provided and for the others.

We therefore conclude that the minimum rates, charges, accessorial charges, and the ratings, rules, and regulations established in and by Decision No. 32504, as supplemented, amended, and modified, and as set forth in said City Carriers' Tariff No. 4 and Highway Carriers' Tariff No. 5 (Appendix "B" hereof) should be established for and made applicable by all highway carriers and city carriers.

F I N D I N G S

Upon consideration of all the evidence of record, the Commission is of the opinion and finds:

1. That the ratings, rates, charges, accessorial charges, rules and regulations set forth in City Carriers' Tariff No. 4 and Highway Carriers' Tariff No. 5, designated as Appendix "B" of the

order herein, are and will be for the future the just, reasonable and nondiscriminatory minimum rates, charges and accessorial charges to be assessed, charged and collected, and the just, reasonable and nondiscriminatory rules and regulations to be observed in applying such rates, charges and accessorial charges, by radial highway common carriers, highway contract carriers and city carriers who first obtained permits, between the dates of June 15, 1941 and January 23, 1942, inclusive, and radial highway common carriers, highway contract carriers and city carriers named in Appendix "C" hereof.

2. That subject to the terms and conditions of Item No. 140 series of said tariff, all said radial highway common carriers, highway contract carriers and city carriers should be authorized to assess, charge and collect rates, charges and accessorial charges of common carriers, lawfully on file with this Commission and in effect on the date of movement, and to observe the ratings, rules and regulations governing the common carrier rate, charge or accessorial charge used, whenever such rates, charges and accessorial charges applied subject to the governing ratings, rules and regulations, produce lower aggregate charges than would accrue for the same transportation under the ratings, rates, rules, regulations and accessorial charges found just, reasonable and nondiscriminatory in Finding No. 1.

3. That except as provided in Finding No. 2, all of said radial highway common carriers, highway contract carriers and city carriers should be required to assess, charge and collect, for the transportation or accessorial services to which said tariff is applicable, rates, charges and accessorial charges no lower in volume or effect than those set forth or referred to in said tariff and to observe ratings, rules and regulations no lower in volume or effect than those set forth or referred to therein.

4. That said radial highway common carriers, highway contract carriers and city carriers should be required to issue a shipping document for each shipment received for transportation, or a shipping document in manifest form for all shipments received from one shipper at one time and at one place, showing thereon the names of the shipper and of each consignee, the point of origin and point of destination of each shipment, a description of each shipment, the rate and charge assessed and such other information respecting each of the factors entering into the computation of the charge as may be necessary in conjunction with the tariff designated as Appendix "B" of the order herein, to verify the lawfulness of such charge, provided that said shipping document in manifest form may be issued to the shipper without all of the required information when supplemented by the issuance to the consignee of freight bills or delivery receipts and freight bills containing the required information not shown on said shipping document in manifest form; that a copy of each of such documents, delivery receipts and freight bills shall be retained and preserved by the carrier for reference and subject to the Commission's inspection, for a period of not less than three (3) years from the date of its issuance; and that the forms of shipping documents set forth in Appendix "A" of the order herein will be suitable and proper.

5. That none of said radial highway common carriers, highway contract carriers or city carriers should be permitted to quote, assess, charge, collect, or observe rates, rules, regulations or accessorial charges in a unit of measurement different from that in which the rates herein provided as minimum for the same transportation or accessorial charges are stated.

6. That to the extent carriers affected by order herein may be deemed to be "transportation companies" within the meaning of

Article XII, Section 21 of the Constitution of the State of California, they should be authorized to charge less for longer than for shorter distances, to the extent necessary to meet the rates of competitive forms of for-hire transport for the same transportation, under the terms and conditions and in the manner provided in said tariff designated as Appendix "B" of the order herein.

O R D E R

An adjourned public hearing having been held in the above entitled proceeding, and based upon the evidence received therein and upon the conclusions and findings set forth in the preceding opinion,

IT IS HEREBY ORDERED:

1. That the rates, charges, accessorial charges, rules and regulations set forth in City Carriers' Tariff No. 4 and Highway Carriers' Tariff No. 5 designated as Appendix "B" attached hereto and by this reference made a part hereof, be and they are hereby established and approved as the just, reasonable and nondiscriminatory minimum rates, charges and accessorial charges to be assessed, charged and collected and the rules and regulations to be observed, by any and all radial highway common carriers, highway contract carriers and city carriers who first obtained permits between the dates of June 15, 1941 and January 23, 1942, inclusive, and radial highway common carriers, highway contract carriers and city carriers named in Appendix "C" hereof, for the transportation of the property and between the points for which rates and charges are provided in said tariff and for the accessorial services rendered incidental thereto.

2. That all of said radial highway common carriers, highway contract carriers and city carriers be and they are hereby authorized to assess, charge and collect common carrier rates and ac-

cessorial charges, and to observe common carrier rules and regulations lawfully on file with the Commission and in effect on the date of movement, subject to the terms and conditions and in the manner explained in Finding No. 2 of the preceding opinion.

3. That on and after the effective date of this order all of said radial highway common carriers, highway contract carriers and city carriers be and they are hereby ordered and directed to cease and desist and thereafter to abstain from assessing, charging or collecting rates, charges or accessorial charges lower in volume or effect than those set forth or referred to in said tariff, and from observing rates, rules or regulations lower in volume or effect than those set forth or referred to therein.

4. That on and after the effective date of this order all of said radial highway common carriers, highway contract carriers and city carriers be and they are hereby ordered and directed to cease and desist and thereafter to abstain from quoting, assessing, charging or collecting rates or accessorial charges based upon a unit of measurement different from that in which the rates and charges herein established as minimum are stated.

5. That to the extent carriers affected by the order herein may be deemed to be "transportation companies," within the meaning of Article XII, Section 21 of the Constitution of the State of California, said carriers be and they are hereby authorized to charge less for longer than for shorter distances, to the extent necessary to meet the rates of competitive forms of for-hire transport for the same transportation, under the terms and conditions and in the manner provided in said tariff designated as Appendix "B" hereof.

6. That said radial highway common carriers, highway contract carriers and city carriers be and they are and each of them

is hereby ordered and directed to issue a shipping document for each shipment received for transportation, or a shipping document in manifest form for all shipments received from one shipper at one time and at one place, showing thereon the names of the shipper and consignee, the point of origin and point of destination of each shipment, a description of each shipment, the rate and charge assessed and such other information respecting each of the factors entering into the computation of the charge as may be necessary, in conjunction with the tariff designated as Appendix "B" hereof, to verify the lawfulness of such charge, provided that said shipping documents in manifest form may be issued to the shipper without all of the required information, when supplemented by the issuance to the consignees of freight bills or delivery receipts and freight bills containing the required information not shown on said shipping document in manifest form; and shall retain and preserve a copy of each of such shipping documents, delivery receipts and freight bills, subject to the Commission's inspection, for a period of not less than three (3) years from the date of its issuance; and that the forms of shipping documents set forth in Appendix "A" hereof will be suitable and proper.

7. That any and all supplements to or modifications and amendments of said City Carriers' Tariff No. 4 and Highway Carriers' Tariff No. 5, being Appendix "A" to Decision No. 32504 and Appendix "B" to this decision, hereinafter made in this proceeding, shall supplement, modify, or amend this decision also, without express reference to this decision therein.

This order shall become effective on the date hereof.
