BEFORE TEE RAILROAD COMMISSION OF TEE STATE OF CAITEORNA

> In the Hinter of the application of
> Grainy Brotinors, Inc., a corporation, for authority to charge less than, minimum rates for the transportation) of cement in souther Califomia.

AppLication No. 25008

EU TEE COMMISSION:

## OPINION AND ORDER

By the application, as amended, Groom Brothers, Inc., a highway contract carrion, socks autinowty under Section in of the Eighmay Carriers' Act to transport bull cement for Southwester Portland Comet Company from National City to the site of tho san Vincente Dam (near Lakeside, San Diego Count), at a rate loss than the established minimum rates. The proposed rate is 4 cents per 100 pounds, <compat>ᄑintmum weight 25,000 pounds; the minimum rates, when
 100 pound e, minimum woient 20,000 and 36,000 pounds, respectively. ${ }^{2}$

It 12 represented that before the minimum rates were estabilished applicant contracted with the interested shipper to transport 290,000 barrels of cement between the points in question at the proposed rate; that 240,000 bampole are y ot to be delivered; and that unless the sought rate is authorized the contract oily be canceled ane the cement company will perform the transportation $\pm$

[^0] 31, 1942 , as amended, in Case No. 4246, in re Rates of Ail Common and Elenway Carriers.

2
The weight of a barrel of cement is 376 pounds.
with its own equipment．Applicant also ropresonts that it has in－ stalled facilさties at National City for tine expecitious and ocomomí cal handing of the cement under this contract and tiant cancella－ tion of the contract would result in tho $20 s$ of the substantial sum Of money invostcd in thoso faciIItさec．Apoİcantis compilation of the cost of transporting the inset 50,000 barreis of coment shows that ful costs mount to approximatoly 3领 conts per 100 pounds． Operating efficiency is expected to be sharpened as a restit of ex－ perience under actual operatins conditione．It is ciained，thero－ fore，that operations under the s－cent mato arve been，and would be profitioie．Tho interests of other hiohway canmiens of buly cement assertedly would not be adversely arfocted by the granting of tioo applicatさon．

It appears tinat tins is a matter in woicin a proife heap－ ins $1=$ not neceseary and that under the circuratances of rocord the proposed rate is reasonoble and should be authonized．The applica－ tion will be gmantec．It furtiner appeare，nowercn，that the mpecial circumstances sumronding transportation botween the points involved will cease upon competion of tine constraction work．Inasmach as the lengtin of thme this work will be in progress cannot now bo de－ termined with any certainty，tiec authority grantod acreln rijl be Ifrited to a one－yoar period，uness soonor changed，conceled on extoncod．

Therefore，good cause appearing，
IN IS FEREEN ORDERED that Gmanam Eros．Inc．，a corporation， bo and $1 t$ 1s hereby autinomzed to transport oulk cement under con－ Eract whti Southweatom Portland Cement Company from National City to the sitc of tine San Vincente Dar（near Lakeside，Som Diego Coun－ ty），at rates Ioss than those eatablisiecd as minfma for that trans－ portation，out not lese tian 4 cents per 100 pownds，minfum woight 25，000 pounds per sifpment．

IT IS EREBV PURMEER ORDERED tinat the authority horcin granted sinall expize one year from the date of this orcier, uniess sooner cinanged, canceled or extonded by appropriatc order of the Comission.

IThis orker sball become enfective on tine dato heroof.
Dated at San Erancisco, canifomia, this 2 hed day or
June, 19x2.

[^0]:    The minimum rates were proscribed by Decision No. 35211 of March
