ORIGINAL

BY THE COMMISSION:

O P I N I O N

By the above-entitled application Gayle R. Green and Ruby M. Green, doing business as Blairsden Stage Company, have petitioned the Railroad Commission for authority to temporarily discontinue their seasonal automotive service for the transportation of passengers and property between Blairsden and Sierra City and intermediate points. The service is operated seasonally between approximately May 15 and September 15 of each year.

As justification for the authority sought applicants allege that conditions brought about by the present war emergency are such that their operations at this time are not warranted. This does not appear to be a matter in which a public hearing is necessary. The application will be granted.

IT IS ORDERED that Gayle R. Green and Ruby M. Green, doing business as Blairsden Stage Company, are hereby authorized to suspend their automotive common carrier service for the transportation of passengers and property between Blairsden and Sierra City and intermediate points for the remainder of the current season and for the 1943 season, subject to the following condition:

Applicant shall file with the Commission, and make effective on not less than one (1) day's notice to the Commission and the public, supplements to its tariffs and time schedules, in triplicate, showing the suspension of service as herein authorized.

The effective date of this order shall be the date hereof.
