Case No. 4246

BY THE COMMISSION:

SUPPLEMENTAL OPINION

An adjourned hearing was held in this proceeding before Examiner Bryant in Los Angeles on September 30, 1942, for the purpose of affording a hearing herein to certain highway carriers who had not previously had an opportunity to be heard respecting the subject matter of this proceeding. Minimum rates, rules and regulations applicable to all other highway carriers have heretofore been established by Decision No. 31606, as amended.¹ The carriers for whom this hearing was held include those who first obtained permits as radial highway common carriers or highway contract carriers between July 5, 1942 and September 15, 1942, inclusive, and certain other radial highway common carriers and highway contract carriers named in Appendix "A" hereof. The record shows that the order

1

Decision No. 31606 of December 27, 1938, in the above entitled proceeding established minimum rates, rules and regulations for the transportation of property within California by highway carriers. These rates, rules and regulations were promulgated in the form of a loose-leaf tariff entitled "Highway Carriers' Tariff No. 2," which was attached to said Decision No. 31606, as Appendix "D" thereof. Decision No. 31606 has been subsequently modified, supplemented, and amended from time to time and new and revised pages incorporating such changes in the tariff have been issued.

instituting investigation herein was duly served on and notice of said hearing herein duly given all such carriers.

Evidence was introduced at the hearing, based upon studies of rates and costs of operation, that the minimum rates and charges and the rules and regulations established by said Decision No. 31606, as amended, and as set forth in Highway Carriers' Tariff No. 2, as supplemented, amended and modified, a copy of which said tariff is contained in Appendix "B" hereof are just, reasonable and nondiscriminatory for all highway carriers, including those carriers hereinabove referred to as well as those previously subject thereto. No criticism was made of the propriety of those minimum rates and charges, rules and regulations and no reason was advanced why they should not be applied as minimum by said carriers. The minimum rates and charges and rules and regulations contained in said Highway Carriers' Tariff No. 2 are based upon favorable conditions affecting the various types of operation and appear to be equally proper for the carriers for whom this hearing was provided and for the others.

We therefore conclude that the minimum rates, charges, accessorial charges, and the ratings, rules, and regulations established in and by Decision No. 31606, as supplemented, amended, and modified, and as set forth in said Highway Carriers' Tariff No. 2 (contained in Appendix "B" hereof) should be established for and made applicable by all highway carriers.

F I N D I N G S

Upon consideration of all the evidence of record, the Commission is of the opinion and finds:

1. That except as provided in Finding No. 2, the rates, charges, accessorial charges, ratings, rules and regulations set

forth in Highway Carriers' Tariff No. 2, contained in Appendix "B" of the order herein, are and will be for the future the just, reasonable and nondiscriminatory minimum rates, charges, and accessorial charges to be assessed, charged and collected and the just, reasonable and nondiscriminatory minimum ratings, rules and regulations to be observed in applying such rates, charges and accessorial charges, by all radial highway common carriers and highway contract carriers who first obtained permits between the dates of July 5, 1942, and September 15, 1942, inclusive, and by all radial highway common carriers and highway contract carriers named in Appendix "A" hereof.

2. That subject to the terms and conditions of Items Nos. 200 to 240 series, inclusive, of said tariff, all said radial highway common carriers and highway contract carriers should be authorized to assess, charge and collect rates, charges and accessorial charges of common carriers, lawfully on file with this Commission and in effect on the date of movement, to construct combinations therewith and to observe the ratings, rules and regulations governing the common carrier rate, charge or accessorial charge used, whenever such rates, charges and accessorial charges, or combinations therewith, applied subject to the governing ratings, rules and regulations, produce lower aggregate charges than would accrue for the same transportation under the ratings, rates, rules, regulations and accessorial charges found just, reasonable and nondiscriminatory in Finding No. 1.

3. That except as provided in Finding No. 2, all of said radial highway common carriers and highway contract carriers should be required to assess, charge and collect, for the transportation or accessorial services to which said tariff is applicable, rates, charges and accessorial charges no lower in volume or effect than those set forth or referred to in said tariff and to observe ratings,

rules and regulations no lower in volume or effect than those set forth or referred to therein.

4. That each and all of said radial highway common carriers, and highway contract carriers should be required to issue shipping document (either in individual or manifest form) for each shipment received for transportation, showing thereon the names of the shipper and consignee, the point of origin and point of destination of the shipment, a description of the commodities shipped in the terms of the Western Classification and Pacific Freight Tariff Bureau Exception Sheet, a statement of the weight of the shipment (or other factor or measurement upon which charges are based), a statement of such other information as may be necessary to an accurate determination of minimum rates and charges applicable under the order herein; that a copy of such shipping document shall be retained and preserved by the carrier for reference and subject to the Commission's inspection for a period of not less than three (3) years from the date of its issuance; and that the form of shipping document contained in Appendix "B" of the order herein will be suitable and proper.

5. That none of said radial highway common carriers or highway contract carriers should be permitted to quote, assess, charge, collect or observe rates, rules, regulations or accessorial charges in a unit of measurement different from that in which the rates herein provided as minimum for the same transportation or accessorial charges are stated.

6. That to the extent carriers affected by the order herein, other than those subject to the Public Utilities Act, may be deemed to be "transportation companies" within the meaning of Article XII, Section 21 of the Constitution of the State of California, they should be authorized to charge less for longer than for

shorter distances to the extent necessary to meet the rates of competitive forms of for-hire transport for the same transportation, under the terms and conditions and in the manner provided in said tariff contained in Appendix "B" of the order herein.

O R D E R

An adjourned public hearing having been held in the above entitled proceeding, and based upon the evidence received therein and upon the conclusions and findings set forth in the preceding opinion,

IT IS HEREBY ORDERED:

1. That the rates, charges, accessorial charges, rules and regulations set forth in Highway Carriers' Tariff No. 2, contained in Appendix "B" hereto and by this reference made a part hereof, be and they are hereby established and approved as the just, reasonable and nondiscriminatory minimum rates, charges and accessorial charges to be assessed, charged and collected, and the rules and regulations to be observed, by any and all radial highway common carriers and highway contract carriers who first obtained permits between the dates of July 5, 1942, and September 15, 1942, inclusive, and by all radial highway common carriers and highway contract carriers named in Appendix "A" hereof, for the transportation of the property and between the points for which rates and charges are provided in said tariff and for the accessorial services rendered incident thereto, except as provided in ordering paragraph No. 2 hereof.

2. That all of said radial highway common carriers and highway contract carriers be and they are hereby authorized to assess, charge and collect common carrier rates and accessorial charges, to construct combinations therewith, and to observe common carrier rules and regulations lawfully on file with the Commission and in effect on

the date of movement, subject to the terms and conditions and in the manner provided in Items Nos. 200 to 240 series, inclusive, of said tariff.

3. That on and after the effective date of this order all of said radial highway common carriers and highway contract carriers be and they are hereby ordered and directed to cease and desist and thereafter to abstain from assessing, charging or collecting rates, charges or accessorial charges lower in volume or effect than those set forth or referred to in said tariff, and from observing rates, rules or regulations lower in volume or effect than those set forth or referred to therein.

4. That on and after the effective date of this order all of said radial highway common carriers and highway contract carriers be and they are hereby ordered and directed to cease and desist and thereafter to abstain from quoting, assessing, charging or collecting rates or accessorial charges based upon a unit of measurement different from that in which the rates and charges herein established as minimum are stated.

5. That to the extent carriers affected by the order herein may be deemed to be "transportation companies," within the meaning of Article XII, Section 21 of the Constitution of the State of California, other than carriers subject to the Public Utilities Act, said carriers be and they are hereby authorized to charge less for longer than for shorter distances, to the extent necessary to meet the rates of competitive forms of for-hire transport for the same transportation, under the terms and conditions and in the manner provided in said tariff contained in Appendix "B" hereof.

6. That all of said radial highway common carriers and highway contract carriers be and they are, and each of them is, hereby

ordered and directed to issue a shipping document (either in individual or manifest form) for each shipment received for transportation, showing thereon the names of the shipper and consignee, the point of origin and point of destination of the commodity shipped in the terms of the Western Classification or Exception Sheet, a statement of the weight of the shipment (or other factor or measurement on which charges are based), a statement of the rate assessed and the charges collected, and a statement of such other information as may be necessary to an accurate determination of the minimum rate and charge applicable under the order herein; and shall retain and preserve a copy of said shipping document, subject to the Commission's inspection, for a period of not less than three (3) years from the date of its issuance; and that the form of shipping document contained in Appendix "B" hereof will be suitable and proper.

7. That any and all supplements to or modifications and amendments of said Highway Carriers' Tariff No. 2, being Appendix "D" to Decision No. 31606 and contained in Appendix "B" to this decision, hereinafter made in this proceeding, shall supplement, modify, or amend this decision also, without express reference to this decision therein.

This order shall become effective on the date hereof.

Dated at San Francisco, California, this 6th day of October, 1942.

90-E Cancels 90-D	<p style="text-align: center;">MIXED SHIPMENTS</p> <p>①. Commodities for which rates are provided in this tariff:</p> <p>(a) When two or more commodities for which different ratings are provided, are shipped as a mixed shipment, without actual weights being furnished or obtained for the portions shipped under the separate ratings, charges for the entire shipment will be computed at the class or commodity rate applicable to the highest classed or rated commodity contained in such mixed shipment, subject to Item No. 80 series.</p> <p>(b) When two or more commodities are included in the same shipment and separate weights thereof are furnished or obtained, charges will be computed at the separate rates applicable to such commodities in straight shipments of the combined weight of the mixed shipment. The minimum weight shall be the highest provided for any of the rates used in computing the charges, subject to Item No. 80 series. In the event a lower charge results by considering such commodities as if they were divided into two or more separate shipments such lower charge shall apply.</p> <p>② Paragraph 1 hereof will not apply to mixed shipments which are subject to the provisions of Item No. 365 series of this tariff.</p> <p>2. Commodities for which rates are provided herein, moving in mixed shipments containing commodities for which rates are provided in other effective tariffs of the Commission, or in mixed shipments containing commodities upon which no minimum rates or charges have been established by this Commission:</p> <p>* (a) When one or more commodities for which rates are not provided in this tariff are included in a shipment of one or more commodities for which rates are herein provided, the rate or rates applicable to the entire shipment may be determined as though all of the commodities were ratable under the provisions of this tariff; or one or more of the commodities for which rates are not provided in this tariff may be transported at the rates otherwise applicable. In the event the latter basis is used, the minimum charges provided in Item No. 150 series of this tariff shall apply to the entire shipment. (See Notes 1, 2 and 3.)</p> <p>NOTE 1.—The provisions of this rule will not apply to mixed shipments containing petroleum or petroleum products in bulk in tank trucks, tank trailers or tank semi-trailers for which rates are provided in tariff designated City Carriers' Tariff No. 5, Highway Carriers' Tariff No. 6 (Appendix "C" of Decision No. 32608, as amended, in Cases Nos. 4246 and 4434).</p> <p>NOTE 2.—The provisions of this rule will not apply to mixed shipments containing used property, viz.: household goods, personal effects and office and store fixtures and equipment, for which rates are provided in the tariff designated City Carriers' Tariff No. 3, Highway Carriers' Tariff No. 4, (Appendix "A" of Decision No. 32629, as amended, in Cases Nos. 4246 and 4434).</p> <p>* NOTE 3.—The provisions of this rule will not apply to mixed shipments containing fresh fruits, fresh vegetables (including fresh mushrooms) or empty containers for which rates are provided in the tariff designated Highway Carriers' Tariff No. 8 (Appendix "C" of Decision No. 33977, as amended, in Case No. 4293).</p> <p>3. Intrastate and Interstate Tonnage:</p> <p>(a) When property consisting of part intrastate and part interstate tonnage is received as a single shipment, the intrastate portion may be charged for at the rate which would be applicable on such portion were the entire quantity intrastate in character. In no event shall the aggregate charge on the intrastate and interstate portions be less than the charge herein provided for an intrastate shipment of the same combined quantity.</p>

100-C Cancels 100-B	<p style="text-align: center;">COMPUTATION OF DISTANCES</p> <p>(a) Distances to be used in connection with distance rates named herein shall be the shortest resulting mileage via any public highway route, computed in accordance with the method provided in Decision No. 31605 of December 27, 1938, as amended, or as may be amended, in Case No. 4088, Part "N", Case No. 4145 and Case No. 4246, subject to the following exceptions:</p> <p>1. Distances from or to points located within zones described in Item No. 260 series shall be computed from or to the mileage basing points designated in connection with such descriptions.</p> <p>2. From points of origin or to points of destination more than 70 miles distant from both the San Francisco and the Oakland pickup and delivery zones (computed in accordance with the method hereinabove provided), distances from or to points located within the San Francisco pickup and delivery zone or located within the Oakland pickup and delivery zone shall be the average of the distances from or to the San Francisco pickup and delivery zone and the Oakland pickup and delivery zone (computed in accordance with the method hereinabove provided). In the event such average distance is less than the distance computed from or to an intermediate point via the shortest constructive route, such lesser mileage shall apply from or to such intermediate point. (See Note.)</p> <p>3. For transportation under rates in Items Nos. 654 and 728 series, between points lying within the Imperial Valley Irrigation District on the one hand and points lying without such district on the other hand, distances shall be those computed in accordance with said Decision No. 31605, as amended, from or to the City of Imperial.</p> <p>*NOTE.—In computing distances under the provisions of Item No. 160 series in connection with split pickup shipments, or under the provisions of Item No. 170 series in connection with split delivery shipments, the average of the distance from or to (or from and to) the San Francisco Pickup and Delivery Zone and the distance from or to (or from and to) the Oakland Pickup and Delivery Zone shall be used only when the distance computed under the provisions of those items from or to (or from and to) both zones is more than 70 constructive miles.</p>

APPLICATION (Continued)

ⓄCOLLECTION OF CHARGES

(a) Except as otherwise provided in this rule, transportation and accessorial charges shall be collected by the carriers prior to relinquishing physical possession of shipments entrusted to them for transportation.

(b) Upon taking precautions deemed by them to be sufficient to assure payment of charges within the credit period herein specified, carriers may relinquish possession of freight in advance of the payment of the charges thereon and may extend credit in the amount of such charges to those who undertake to pay them, such persons herein being called shippers, for a period of 7 days, excluding Sundays and legal holidays other than Saturday half-holidays. When the freight bill covering a shipment is presented to the shipper on or before the date of delivery, the credit period shall run from the first 12 o'clock midnight following delivery of the freight. When the freight bill is not presented to the shipper on or before the date of delivery, the credit period shall run from the first 12 o'clock midnight following the presentation of the freight bill.

(c) Where a carrier has relinquished possession of freight and collected the amount of charges represented in a freight bill presented by it as the total amount of such charges, and another freight bill for additional charges is thereafter presented to the shipper, the carrier may extend credit in the amount of such additional charges for a period of 30 calendar days to be computed from the first 12 o'clock midnight following the presentation of the subsequently presented freight bill.

(d) Freight bills for all transportation and accessorial charges shall be presented to the shippers within 7 calendar days from the first 12 o'clock midnight following delivery of the freight.

(e) Shippers may elect to have their freight bills presented by means of the United States mail, and when the mail service is so used the time of mailing by the carrier, as evidenced by the postmark, shall be deemed to be the time of presentation of the freight bills.

(f) The mailing by the shipper of valid checks, drafts, or money orders, which are satisfactory to the carrier, in payment of freight charges within the credit period allowed such shipper may be deemed to be the collection of the charges within the credit period for the purpose of these rules. In case of dispute as to the time of mailing, the postmark shall be accepted as showing such time.
