1

In the Matter of the Establishment of maximum or minimum, or maximum and minimum rates, rules and regu-lations of all common carriers as defined in the Public Utilities Act of the State of California, as amend-) ed, and all highway carriers as defined in Chapter 223, Statutes of 1935, as emended, for the transpor-tation, for compensation or hire, of any and all commodities.

In the Matter of the Establishment of maximum or minimum, or maximum and minimum rates, rules and regulations of all carriers as defined in the City Carriers' Act of the State of California (Statutes 1935, Chapter 312, as amended) for the transportation over the public highways within any city or city and county in the State of California, for compensation or hire, of any and all commodities.

Case No. 4434

Case No. 4246

ORIGINAL

BY THE COMMISSION:

SUPPLEMENTAL OPINION

An adjourned hearing was held in these proceedings before Examiner Bryant in Los Angeles on September 30, 1942, for the purpose of affording a hearing herein to certain highway carriers and city carriers who had not previously had an opportunity to be heard respecting the subject matter of these proceedings. Minimum rates, rules and regulations applicable to all other highway carriers and city carriers have heretofore been established by Decision

-1-

No. 32608, as amended. The carriers for whom this hearing was held include those who first obtained permits as radial highway common carriers, highway contract carriers, or city carriers, between July 5, 1942, and September 15, 1942, inclusive, and certain other radial highway common carriers, highway contract carriers and city carriers named in Appendix "A" hereof. The record shows that the order instituting investigation herein was duly served on and notice of said hearing herein duly given all such carriers.

Cs. 4246-4434

T

Evidence was introduced at the hearing, based upon studies of rates and costs of operation, that the minimum rates and charges and the rules and regulations established by said Decision No. 32608, as amended, and as set forth in City Carriers' Tariff No. 5 and Highway Carriers' Tariff No. 6, as supplemented, amended, and modified, a copy of which said tariff is contained in Appendix "B" hereof, are just, reasonable and nondiscriminatory for all highway carriers and city carriers, including those carriers hereinabove referred to as well as those previously subject thereto. No criticism was made of the propriety of those minimum rates and charges, rules and regulations and no reason was advanced why they should not be applied as minimum by said carriers. The minimum rates and charges and rules and regulations contained in said City Carriers' Tariff No. 5 and Highway Carriers' Tariff No. 6 are based upon

Decision No. 32603 of December 5, 1939, in the above entitled proceedings reestablished minimum rates and rules and regulations for the transportation of petroleum and petroleum products in bulk in tank truck equipment between points in California by highway common carriers, radial highway common carriers, highway contract carriers and carriers as defined in Chapter 312, Statutes 1935, as amended, (herein referred to as "city carriers"), which rates and rules and regulations were previously established by Decision No. 32220 in Cases Nos. 4079, 4191, 4249 and 4250. The reestablished rates and rules and regulations were promulgated in the form of a loose-leaf tariff entitled City Cerriers' Tariff No. 5 and Highway Carriers' Tariff No. 6, which was attached to said Decision No. 32608 as Appendix "C" thereof. Decision No. 32508 has been subsequently modified, supplemented and amended and new and revised pages incorporating such changes in the tariff have been issued.

favorable conditions affecting the various types of operation and appear to be equally proper for the carriers for whom this hearing was provided and for the others.

We therefore conclude that the minimum rates, charges, and accessorial charges, and the ratings, rules, and regulations established in and by Decision No. 32603, as supplemented, amended, and modified, and as set forth in said City Carriers' Tariff No. 5 and Highway Carriers' Tariff No. 6 (contained in Appendix "B" hereof) should be established for and made applicable by all highway carriers and all city carriers.

<u>FINDINGS</u>

Upon consideration of all the evidence of record, the Commission is of the opinion and finds:

1. That the rates, charges, accessorial charges, rules and regulations set forth in City Carriers' Tariff No. 5 and Highway Carriers' Tariff No. 6, contained in Appendix "B" of the order herein, are and will be for the future the just, reasonable, and nondiscriminatory minimum rates, charges, and accessorial charges to be assessed, charged and collected and the just, reasonable and nondiscriminatory rules and regulations to be observed in applying such rates, charges and accessorial charges by all radial highway common carriers, highway contract carriers, and city carriers who first obtained permits between the dates of July 5, 1942 and September 15, 1942, inclusive, and by all radial highway common carriers, highway contract carriers and city carriers named in Appendix "A" hereof.

2. That each and all of said radial highway common carriers, highway contract carriers and city carriers should be required to issue for each shipment received for transportation a freight bill in substantially the form contained in Appendix "B"

-3-

Cs. 4246-44 P M.E.

of the order herein but should be permitted to include in said freight bill, in addition to the provisions appearing in said form, such other reasonable and lawful provisions as may be deemed proper, and should be required to retain and preserve, subject to Commission inspection, a copy of said freight bill for a period of not less than three (3) years from the date of its issuance.

QRDER

An adjourned public hearing having been held in the above entitled proceedings, and based upon the evidence received therein and upon the conclusions and findings set forth in the preceding opinion,

IT IS HEREBY ORDERED:

1. That the rates, charges, accessorial charges, rules and regulations set forth in City Carriers' Tariff No. 5 and Highway Carriers' Tariff No. 6, contained in Appendix "B" hereto and by reference made a part hereof, be and they are hereby established and approved as the just, reasonable and nondiscriminatory minimum rates, charges and accessorial charges to be assessed, charged and collected and the rules and regulations to be observed, by any and all radial highway common carriers, highway contract carriers, and

city carriers who first obtained permits between the dates of July 5, 1942 and September 15, 1942, inclusive, and by all radial highway common carriers, highway contract carriers and city carriers named in Appendix "A" hereof, for the transportation of the property and between the points for which rates and charges are provided in said tariff and for the accessorial services rendered incident thereto.

2. That on and after the effective date of this order all of said radial highway common carriers, highway contract car-

-4-

riers, and city carriers be and they are hereby ordered and directed to cease and desist and thereafter to abstain from assessing, charging or collecting rates, charges or accessorial charges lower in volume or effect than those set forth or referred to in said tariff, and from observing rates, rules or regulations lower in volume or effect than those set forth or referred to therein.

3. That each and all of said radial highway common carriers, highway contract carriers and city carriers shall issue to the shipper, for each shipment received for transportation, a freight bill in substantially the form contained in Appendix "B" hereof, but may include in said freight bill, in addition to the provisions appearing in said form, such other reasonable and lawful provisions as may be deemed proper, and shall retain and preserve, subject to the inspection of the Commission, a copy of said freight bill for a period of not less than three (3) years from the date of its issuance.

4. That any and all supplements to or modifications and amendments of said City Carriers' Tariff No. 5 and Highway Carriers' Tariff No. 6, being Appendix "C" to Decision No. 32608 and contained in Appendix "B" to this decision, hereinafter made in these proceedings, shall supplement, modify, or amend this decision also, without express reference to this decision therein.

This order shall become effective on the date hereof. Dated at San Francisco, California, this 24 day of October, 1942.

tur . Calme Commissioners

### CITY CARRIERS' TARIFF NO. 5 HIGHWAY CARRIERS' TARIFF NO. 6

Item No.	SECTION NO. 1 BULES AND REGULATIONS (Continued)
90	Stopping in TRANSIT Shipments shall be subject to an additional charge of \$4.50 for each stop in transit to partially unload. Charges will be collected on the weight of the entire shipment from point
*100-A Cancels 100	PUMPING Rates provided in this tariff do not include pumping service when rendered with carrier's equipment. When pumping service is performed by the carrier, a charge of ¾ of one cent per 100 pounds will be made. (See Exception.) ▲ ENCEPTION.—When pumping is performed in connection with the transportation of petroleum crude oil under Column B rates provided in Item No. 210 series, or under rate
110-A Cancels 110	provided in Item No. 230 series, a charge of 1/3 of one cent per 100 pounds will be made. <b>ALTERNATIVE APPLICATION OF COMMON CARRIER RATES</b> Common carrier rates may be applied in lieu of the rates provided in this tariff, when such common carrier rates produce a lower aggregate charge for the same transportation from the same point of origin to the same point of destination than results from the appli- cation of the rates herein provided. (See Note 1.) • Norz 1.—When the common carrier rate used is subject to minimum weight different from the minimum weight determined in accordance with the provisions of Item No. 80 series, the lesser minimum weight may be observed.
120-A Cancels 120	ALTERNATIVE APPLICATION OF COMBINATIONS WITH COMMON CARRIER PATES. When lower aggregate charges result, rates provided in this tariff may be used in combination with common carrier rates for the same transportation as follows: <ul> <li>(a) When point of origin is located beyond railhead or an established depot and point of destination is located at railhead or an established depot, add to the common carrier rate applying from any team track or established depot to point of destination the rate provided in this tariff for the distance from point of origin to the team track or depot from which the common carrier rate used applies. (See Notes 1 and 2.)</li> <li>(b) When point of origin is located at railhead or an established depot and point of destination is located beyond railhead or an established depot depot the common carrier rate used applies. (See Notes 1 and 2.)</li> <li>(c) When both point of origin and point of destination are located beyond railhead or an established depot to which the common carrier rate used applies to point of destination. (See Notes 1 and 2.)</li> <li>(c) When both point of origin and point of destination are located beyond railhead or established depot to depot to which the common carrier rate used applies to point of destination. (See Notes 1 and 2.)</li> <li>(c) When both point of origin and point of destination are located beyond railhead or established depots the rate provided in this tariff for the distance from point of origin to the team track or depot to which the common carrier rate used applies, plus the rate provided in this tariff for the common carrier rate spoint of destination. (See Notes 1 and 2.) NOTE 1.—If the route from point of origin to the team track or the established depot, a single incorporated city, the rates provided in this tariff for than sportation for distances of 5 miles or less, or rates established for transportation by carriers as defined in the City Carrier's Act.
