OPINION AND ORDER

Under authority granted by the Commission in Decision No. 36221, dated March 16th, 1943, on the 58th Supplemental Application in the above-numbered proceeding, Pacific Electric Railway Company was authorized to operate a rail passenger service between Newport Beach and a connection with its Los Angeles-Long Beach rail line at Willows Street, North Long Beach, and granted permission to suspend a motor coach service previously serving this territory, a certificate for which was granted under authority of Decision No. 33688, dated December 3rd, 1940, as modified by Decision No. 35716, dated September 1st, 1942. For reasons of military expediency, the United States Navy Department has requested that applicant discontinue this rail service between sunset and sunrise, and applicant has requested permission to partially re-establish said suspended motor coach service to provide for early morning and late evening operations.

This request appearing in public interest, IT IS HEREBY ORDERED that Pacific Electric Railway Company is authorized to re-establish in part its motor coach service on its Los Angeles-Huntington Beach-Balboa Line under the same conditions, in so far as applicable, under which said motor coach service was operated previous to its suspension by authority granted in Decision No. 36221, dated March 16th, 1943, and coincident with the re-establishment of said

service to discontinue rail service between East Long Beach and Newport Beach during the hours that motor coach service is provided.

This order shall be effective immediately.
