BY THE COMMISSION:

FIRST SUPPLEMENTAL OPINION

Mary Maritzen and E. B. Osthues, applicants herein, were granted a certificate of public convenience and necessity on September 9, 1942, ⁽¹⁾ to operate as a passenger stage corporation between Modesto and Hammond General Hospital, situated approximately three miles northwest of Modesto.

Applicants have now filed a supplemental application the purpose of which is to effect a slight change in route within the city of Modesto, by which their buses will operate from 11th and I Streets, east on I Street to 12th Street, south on 12th Street to H Street, west on H Street to 9th Street and north on 9th Street to I Street, said route to be in addition to the present operation. The effect of such change would be to permit applicants to use both I and H Streets in coming to and leaving the Modesto terminus, thus avoiding unnecessary or hazardous turns, and at the same time conform with municipal traffic rules.

No other changes are proposed, nor is there involved any variation in time schedules or fares. We believe the proposed change in route is in the public interest and the application will therefore be granted. A public hearing does not appear necessary.

(1) Decision No. 35800, Application No. 25232.
