No. 35675 on Application No. 25106. )

BY THE COMMISSION:

**ORIGINAL**

O P I N I O N

By his second supplemental application, as amended, A. J. Chapin requests certain minor reroutings of his present operations between Sacramento and McClellan Field and intermediate points and between Sacramento and American River Hydroelectric Damsite and intermediate points.

It is asserted that the reroutings sought would enable applicant to better serve certain dormitories maintained adjacent to McClellan Field as housing facilities for employees. It would also enable applicant to render more expeditious and complete service to the general public in the territory which he now serves.

To accomplish these reroutings applicant requests the Commission to amend and restate his routes of operation as now defined in the service regulations of the orders of Decision No. 35675, rendered August 11, 1942, as modified by Decision No. 36091, dated January 5, 1943, and by Decision No. 36094, rendered January 5, 1943. This request appears to be in the public interest and will be granted. No public hearing is necessary.
