Application No. 23218

BY THE COMMISSION:

FOURTH SUPPLEMENTAL OPINION AND ORDER

This proceeding involves rates for the transportation of fuel oil and road oil in bulk in tank truck equipment within and in the vicinity of the City of Fresno. By Decision No. 32710, as amended, applicant was authorized to perform this service for Tide Water Associated Oil Company at rates less than those established as minima for this transportation in Cases Nos. 4246 and 4434, in re Rates of All Common, Highway and City Carriers.¹ This authority will expire January 27, 1944. By supplemental application its indefinite extension is sought. Verified statements submitted by applicant disclose that there has been no material change in the conditions under which the service in question is performed.

1

A minimum rate of 2½ cents per 100 pounds has been prescribed for the transportation of both fuel oil and road oil between all of the points involved herein in lots of not less than 3,000 gallons (23250 pounds). Applicant has been authorized to assess charges on the basis of not less than 15 cents per barrel of 42 gallons (4.6 cents per 100 pounds), regardless of the size of the shipment.

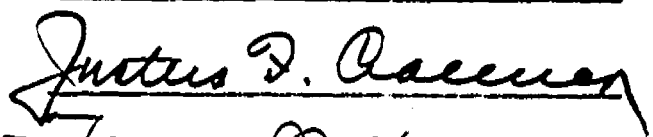

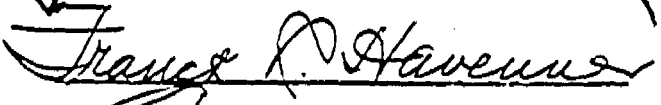

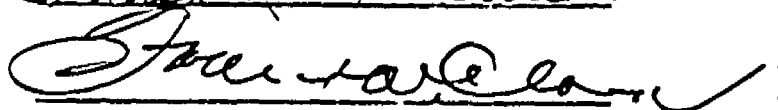

It appears that this is a matter in which a public hearing is not necessary and that a one-year extension of the authority is justified. To this extent the supplemental application will be granted.

Therefore, good cause appearing,

IT IS HEREBY ORDERED that the expiration date of the authority granted W. F. Dunn by Decision No. 32710, as amended, in the above entitled application, be and it is hereby extended to January 27, 1945, unless sooner changed, canceled or further extended by appropriate order of the Commission.

This order shall become effective January 27, 1944.

Dated at Los Angeles, California this 19th day of January, 1944.
