BEFORE THE RAILROAD COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of

partnership, doing business under the
firm name and style of THE MODESTO
TRANSIT COMPANY, for a certificate of
public convenience and necessity to
operate bus service as a common carrier
of passengers, baggage and express
between the City of Modesto, Stanislaus
County, California and South Modesto
Acres in Stanislaus County, California,
and all intermediate points.

ORIGINAL

Application No. 26364

BY THE COMMISSION:

O P I N I O N

In this proceeding, Mary Maritzen and E. B. Osthus, partners doing business as The Modesto Transit Company, seek a certificate of public convenience and necessity under Section 502, Public Utilities Act, authorizing the operation of a passenger stage service for the transportation of passengers, baggage and express between Modesto and South Modesto Acres, and intermediate points.

South Modesto Acres is a suburban settlement, having a population, so applicants allege, of approximately 3,000, and is situated some 3½ miles southwest of Modesto, in Stanislaus County. The business, banking and shopping center of this district is Modesto, where the majority of its inhabitants are employed. They also are dependent upon medical and dental services at Modesto.

Between Modesto and South Modesto Acres, no public transportation service now exists. For this reason, it is alleged,

the residents of the district have suffered considerable hardship and inconvenience. Applicants, so they state, frequently have been requested to establish such a service.

To provide the service, applicants, at the outset, would use one 22-passenger, rebuilt 1938 Dodge bus. They now are negotiating for the purchase of a new Dodge or Studebaker 29-passenger bus. Daily between 6:40 A.M. and 11:40 P.M., the service would be operated under a forty-minute headway. A single one-way fare of five cents per passenger is proposed.

There appears to be a public need for the service which applicants propose to establish. As stated, no other common carrier would be affected. Accordingly, the application will be granted. This is not a matter requiring a public hearing.

Mary Maritzen and E. B. Osthues are hereby placed upon notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate-fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, they extend to the holder a full or partial monopoly of a class of business over a particular route. This monopoly feature may be changed or destroyed at any time by the State, which is not in any respect limited to the number of rights which may be given.

ORDER

Application having been made as above entitled, and the Commission now finding that public convenience and necessity

so require,

IT IS ORDERED as follows:
