The service includes the transportation of (1) baggage and express shipments not exceeding 100 pounds in weight. Suspension is sought for a period of one year.

The operation was established pursuant to a certificate (2) of public convenience and necessity granted to William Callahan, and the right was subsequently acquired by Reynolds. It was designed principally for the accommodation of civilians employed at the Academy.

Mira Loma Flight Academy operates the Academy as a training school for United States Army codet fliers in fulfillment of a contract with the Air Force of the United States Army. The civilian personnel is employed to render various services, principally to provide meals and housing for the men in training.

(2) Decision No. 34662; dated October 14, 1941, in Application No. 24494.

-1-:

A...26758 - GN

Applicant alleges that the Academy has been informed by United States Government officials that the training of fliers at this post will cease on or about August 4, 1945, hence there will be no further need for said transportation service. There is no other business at the Academy except that directly resulting from said United States Army Air Force contract. It appears that applicant's request to suspend service for a period of one year, pending the determination of future operation at the Academy, should be granted. A public hearing is not necessary.
