Case No. 4293

BY THE COMMISSION:

SUPPLEMENTAL OPINION AND ORDER

By Decision No. 36826 of January 18, 1944, in these proceedings, exemption from the established minimum rates was granted Lloyd F. Harvey, a highway common carrier, in connection with the transportation of shipments weighing 250 pounds or less between Yermo and Death Valley Junction,

By verified petition, Harvey seeks a similar exemption for a proposed new service between Death Valley Junction and Stovepipe Wells. Petitioner states that the operating authority sought, in so far as property transported for the public is concerned, is limited to shipments weighing 250 pounds or less, and that the territory involved is sparsely settled. By decision entered today, the sought operating authority has been granted. This operation will be

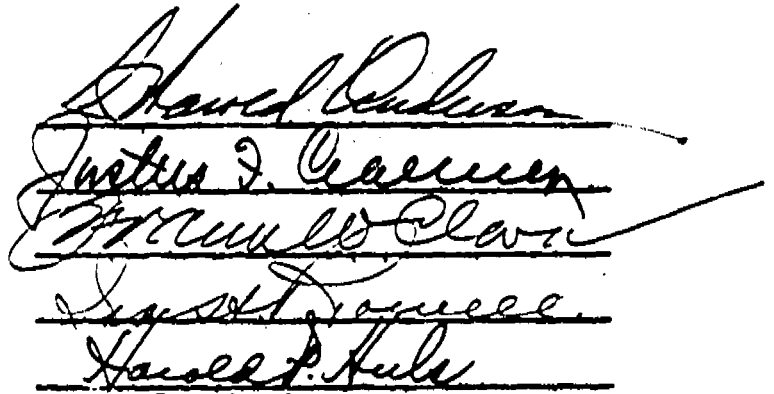

conducted under circumstances different than those surrounding transportation for which the minimum rates were designed. The circumstances here are similar to those under which Harvey and other carriers have heretofore been granted exemptions. The sought exemption appears justified and will be granted.

Therefore, good cause appearing,

IT IS HEREBY ORDERED that Decision No. 31606, as amended, in Case No. 4246 and Decision No. 33977, as amended in Case No. 4293, be and they are hereby further amended by adding to paragraphs (a) of Findings Nos. 14 and 12, respectively, thereof "Lloyd F. Harvey, in connection with the transportation of shipments weighing 250 pounds or less between Death Valley Junction and Stovepipe Wells and intermediate points."

This order shall become effective on the date hereof.

Dated at San Francisco, California, this 20th day of November, 1945.
