Application No. 24949

## FOURTH SUPPLEMENTAL OPINION AND ORDER

For the reasons set forth in Decision No. 35320 of May 5, 1942, in this proceeding, applicant was authorized to doviate from the minimum rates otherwise applicable to the transportation of bakery goods. This authority is limited to a routed delivery service performed for National Biscuit Company and Loose-Wiles Biscuit Company in connection with shipments originating in San Francisco and Oakland and destined to points in those cities and to various other points along designated routes extending to Willits, Calistoga, Suisun-Fairfield, Tracy and San Jose, This authority expires July 11, 1946. By supplemental application a one-year extension of this authority at increased rates is sought.

The verified supplemental application shows that since this authority was considered a year ago applicant has experienced certain higher operating costs; that the increased rates proposed will compensate for these greater costs; that operations under the proposed rates will be compensatory; and that the authority sought is necessary to retain the traffic in for-hire transportation

· -<u>1</u>-

Applicant proposes to increase the authorized rate of 35 cents per 100 pounds, minimum aggrogate weight 3,812 pounds, to 40 cents por 100 pounds, minimum aggregate weight 5,250 pounds. It also proposes to increase the mileage rate of 7 cents per mile for mileage traveled in excess of 50 miles per trip to 10 cents per mile.
