Application No. 28356

O P I N I O N

In the above-entitled application Asbury Rapid Transit System, a corporation, requests the Commission to modify in minor respects its present route of operation within the northern portion of the downtown area of the City of Los Angeles on its so-called Los Angeles-San Fernando Division.

The present route along Alpine and North Spring Streets between the intersections of Castelar and Alpine Streets and Sunset Boulevard and North Spring Street is proposed to be rerouted along Castelar Street, Ord Street, New High Street, and Sunset Boulevard between the same intersections. In support of the request the application states that the rerouting is requested by the City of Los Angeles through its Board of Public Utilities and Transportation as a means of relieving traffic congestion along the section of the route proposed to be abandoned. No change of fares or service is herein involved.
