O P I N I O N

By the first supplement in the above-entitled application, Pacific Greyhound Lines seeks authority to operate a passenger stage service along Manchester Avenue and Sepulveda Boulevard a distance of approximately three miles, as an optional route in its service between Santa Monica and Long Beach. Applicant states that within the last two years the territory adjacent to the intersection of Manchester Avenue and Sepulveda Boulevard has experienced a substantial residential and industrial development, and that many requests have been received for an extension of applicant's service to this area. The district, approximately 1½ miles east of applicant's present route along Lincoln Boulevard, is now provided local service by Inglewood City Lines and Pacific Electric Railway Company. Both carriers have indicated by letter that no protest will be made to the authority sought herein by applicant.

It appears that the change proposed herein is in the public interest and should be granted. No hearing is necessary.
