

Decision No. 41211

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of SOUTHERN CALIFORNIA EDISON COMPANY, a corporation, for an Order of the Public Utilities Commission of the State of California authorizing it to carry out the terms of a special contract with the City of Azusa, a municipal corporation, for the furnishing of electric service to said City for resale purposes.

Application No. 29011

OPINION AND ORDER

Southern California Edison Company in this application requests authority to execute an agreement with the City of Azusa, which sets forth the terms and conditions under which the utility will supply electric service to the City. A copy of the contract dated December 1, 1947 is attached to and made a part of the application as Exhibit "A".

Applicant asserts that electric service has heretofore been rendered to the City in accordance with a special contract dated December 10, 1945, which contract is terminated and superseded by the terms and conditions of the agreement submitted herewith.

According to applicant the load growth of the City of Azusa during the past several years has increased to such an extent that additional 2400-volt capacity is required, which applicant is willing to provide. However, because of the uncertainty as to whether or not such additional capacity could be provided under the old contract dated December 10, 1945, applicant and City executed a new service contract clarifying the conditions under which electric energy supplied to the City will be delivered and metered, and including a provision for the change of frequency from 50 cycles to 60 cycles, as authorized by Decision No. 38090 of this Commission.

Except for a few other minor additions, the rates and major provisions of the new contract are the same as the old contract; therefore, the over-all effect of both contracts is substantially the same.

The term of this new contract is from December 1, 1947 to October 1, 1956, and shall automatically continue from month to month thereafter until terminated by either party by written notice.

Southern California Edison Company in submitting this agreement alleges that the rates, terms and conditions contained therein are fair, just and reasonable. The contract further provides that it is subject to such changes or modifications as may be ordered by this Commission from time to time in the exercise of its jurisdiction.

The Commission having considered the application, and being of the opinion that it should be granted, that a public hearing in the matter is not necessary, and good cause appearing, therefore

IT IS HEREBY ORDERED that Southern California Edison Company is hereby authorized to carry out the provisions, to render the service, and to charge and collect the rates specified in that certain agreement dated December 1, 1947, between said utility and the City of Azusa, submitted as Exhibit "A" herein, covering the sale and purchase of electric energy and service, and

IT IS HEREBY FURTHER ORDERED that Southern California Edison Company is hereby authorized to cancel that special agreement dated December 10, 1945 between said utility and the City of Azusa, covering the sale and purchase of electric energy and service.

The effective date of this Order is twenty days from and after the date hereof.

Dated at San Francisco, California, this 10th day of February, 1948.
