SUPPLEMENTAL OPINION AND ORDER

Decision No. 29217 of October 26, 1936, in these proceedings, established minimum rates for city and highway carrier operations in the East Bay drayage area. It also established rules and
regulations governing the application of these rates. By supplemental orders, the rates, rules and regulations have from time to
time been revised as circumstances required. The minimum rate
structure thus prescribed has been compiled in a separate publication
designated as "City Carriers' Tariff No. 2 - Highway Carriers'
Tariff No. 1."

Upon due notice to interested parties, an adjourned public hearing was scheduled for the receipt of evidence relative to the

This area consists of the cities of Oakland, Alameda, Albany, Berkeley, Emeryville and Piedmont.

advisability of promulgating the present minimum rate structure in a reissued tariff. This hearing was had at San Francisco on March 12, 1948, before Examiner Mulgrew.

At the hearing, a rate expert employed by the Commission submitted a proposed new tariff. The provisions of the various outstanding orders dealing with minimum rates and charges, he said, have been consolidated and rearranged therein in the interest of greater tariff clarity and uniformity. The witness stated that the changes involved would not result in increases or reductions. He recommended that the proposed tariff and future revisions thereof be included in the rate orders themselves. This, he testified, would make tariff compilation following the issuance of the orders unnecessary, would be in keeping with the practice established in minimum rate investigations instituted subsequent to this proceeding, and would simplify the service of rate orders upon the carriers and other interested parties.

The proposals were not opposed, nor were alternative suggestions offered.

It appears that establishment of the new tariff as recommended will enable determinations of applicable minimum rates and charges to be made more readily and at the same time improve procedures in effecting the service of rate orders. The proposals will, accordingly, be adopted.

Therefore, good cause appearing,

IT IS HEREBY ORDERED that the minimum rates and charges and the rules and regulations governing their application established by Decision No. 29217 of October 26, 1936, as amended, in the above entitled proceedings, be and they are hereby superseded, April 20, 1948, by those set forth in City Carriers! Tariff No.2-A -

Highway Carriers' Tariff No. 1-A (Cancels City Carriers' Tariff No. 2 - Highway Carriers' Tariff No. 1), attached hereto as Appendix "A" and by this reference made a part hereof; and that, as further amended herein, said Decision No. 29217, as amended, shall remain in full force and effect.

IT IS HEREBY FURTHER ORDERED that any tariff publications of common carrier respondents in Case No. 4109 filed pursuant to this order may be made effective not earlier than April 20, 1948, and on not less than three (3) days' notice to the Commission and to the public.

This order shall become effective twenty (20) days from the date hereof.

Dated at San Francisco, California, this 23 24 day of March, 1948.
