Decision No. 42802

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application)
of Ira P. Lamb for permission to) Application No. 21911
charge other than minimum rates.) (11th Supplemental)

SUPPLEMENTAL OPINION AND ORDER

Prior orders in this proceeding have authorized applicant to observe rates deviating from the established minimum rates for the transportation of property for General Mills, Inc. - Sperry Division between points within specified southern California territory. He now seeks extension of the territorial application of the authority to San Diego County.

The verified supplemental application shows that General Mills is arranging to supply San Diego County from its Los Angeles facilities. Applicant alleges that the handling of the additional traffic involved will not impair his present operations; and that, unless the sought extension is granted, the shipper will provide the service with its own trucks.

It appears that the requested authority is justified and should be granted. A public hearing is not necessary.

Therefore, good cause appearing,

IT IS HEREBY ORDERED that paragraph 3 of Item 15 of Appendix "A" to Decision No. 30938, as amended, in this proceeding,

be and it is hereby further amended by adding a new subparagraph reading:

"(e) Points in San Diego County and points intermediate thereto."

This order shall become effective twenty (20) days from the date hereof.

Dated at San Francisco, California, this 7th day of July, 1948.
