

**ORIGINAL**Decision No. 42085

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of Application of )  
 TORRANCE MUNICIPAL BUS LINES for )  
 installation of railroad crossing ) Application No. 29604  
 exemption sign at spur track cross- )  
 ing 6RC-16.87-C Vermont Avenue near )  
 Shell Chemical Plant. )

O R D E R

Applicant operates daily over the crossing herein involved and there is no provision for vehicle to pull out of the driving lane when making stop as required. It appears that hazards will be reduced by allowing passenger stages to pass over the crossing without first coming to a stop, and Good Cause Appearing, IT IS ORDERED that approval is hereby granted for the display of distinctive "exempt signs" (Vehicle Code Sec. 576 (d)), at the following spur track crossing:

<u>Crossing No.</u>	<u>Railroad</u>	<u>Street</u>	<u>County</u>
6RC-16.87-C	Pacific Electric Co.	Vermont Avenue	Los Angeles

Such signs shall comply with G.O. 93-A and shall be erected and maintained by the proper authorities. If any sign is removed, or the view thereof obstructed, vehicles carrying passengers for hire must come to a full and complete stop before passing over the crossing. Within 30 days after erection of such signs applicant shall so advise the Commission in writing. This approval does not exempt any vehicle operator from the observance of any provision of the Vehicle Code, and shall become void if signs are not displayed within one year (unless time be extended), or if above conditions are not complied with. Approval may be revoked or modified if public convenience, necessity, or safety so require.

This order shall be effective 20 days from the date hereof.

Dated at San Francisco, California, this 28<sup>th</sup> day of September, 1948.
