

Decision No. 42094

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of
 PACIFIC GAS AND ELECTRIC COMPANY for
 an order of the Public Utilities Com-
 mission of the State of California
 granting to applicant a certificate of
 public convenience and necessity to
 exercise the right, privilege and
 franchise granted to applicant by Ordin-
 ance No. 184 of the Board of Supervisors
 of the COUNTY OF COLUSA, State of
 California.

(Electric)

ORIGINAL

Application No. 29356

R. W. DuVal, for applicant.

O P I N I O N

Pacific Gas and Electric Company asks for a certificate of public convenience and necessity to exercise a franchise granted by the County of Colusa permitting the installation, maintenance and use of electric facilities upon the roads and highways of said county.

The franchise referred to, a copy of which is attached to the application and marked Exhibit A, is for an indeterminate term running until its surrender or abandonment or forfeiture for noncompliance, or purchase by the state, county, or other public corporation, either voluntarily or by condemnation. A fee is payable annually to the county equivalent to 2% of the gross annual receipts arising from the use, operation, or possession of the franchise.

The costs incurred by applicant in obtaining the franchise are stated to have been \$288.75 and the applicant has stipulated that it, its successors or assigns, will never claim before the Commission or before any court or public body, any value for the aforesaid franchise in excess of the actual cost thereof.

A hearing on this application was held before Examiner Knerr at which no opposition to the granting of the requested certificate was

manifested. Pacific Gas and Electric Company, for many years, has served electricity within the County of Colusa without competition, although its existing distribution facilities do not extend to all portions of the county. No other utility or agency now renders electric utility service within the county. The order will provide for a certificate for the presently served area together with extensions made in the ordinary course of business.

The certificate of public convenience and necessity herein granted is subject to the following provisions of law:

That the Commission shall have no power to authorize the capitalization of the franchise involved herein or this certificate of public convenience and necessity or the right to own, operate or enjoy such franchise or certificate of public convenience and necessity in excess of the amount (exclusive of any tax or annual charge) actually paid to the State or to a political subdivision thereof as the consideration for the grant of such franchise, certificate of public convenience and necessity or right.

O R D E R

Application as above entitled having been filed, a public hearing having been held thereon, the matter having been submitted, the Commission being fully advised in the premises and hereby finding that public convenience and necessity so require,

IT IS ORDERED that Pacific Gas and Electric Company be, and it is hereby, granted a certificate to exercise the right, privilege and franchise granted to it by Ordinance No. 184 of the County of Colusa, adopted February 2, 1948, within such parts or portions of said county as are now served by it or as hereafter may be served

by it through extensions of its existing system made in the ordinary course of business as contemplated by Section 50 (a) of the Public Utilities Act.

The effective date of this Order shall be twenty (20) days from and after the date hereof.

Dated at San Francisco, California, this 5th day of October, 1948.
