Application No. 29707
1st Supplemental

SUPPLEMENTAL OPINION AND ORDER AMENDING DECISION NO. 42277

Decision No. 42277, dated November 30, 1948, authorized Gibson Lines to establish and operate as a passenger stage corporation, as defined in Section 2 1/2 of the Public Utilities Act, for the transportation of passengers, baggage and express between Folsom, Folsom Damsite, and all intermediate points, as an extension of and in consolidation with its existing certificate.

The order further provided that applicant should accept the certificate within 30 days and commence service within 60 days of the effective date thereof, which was 20 days after November 30, 1948, the date of the order.

By this First Supplemental Application, applicant requests that the time within which to accept the certificate be extended to 210 days and the time within which service must be established be extended to 240 days. Applicant alleges that up to the present time, the Federal Government has appropriated \$1,000,000 of the \$50,000,000 estimated total cost of the dam. As a result only certain engineering studies have been undertaken, the appropriation being insufficient to enable the commencing of large scale construction operations. For this reason applicant believes that

a passenger stage service between Folsom and Folsom Dam site and intermediate points is not justified at the present time.

The request appears to be reasonable except that applicant need not further defer the acceptance of the certificate beyond 30 days from the effective date of this order. With this modification the request should be granted. A public hearing is deemed unnecessary.

Therefore, good cause appearing, IT IS ORDERED that subparagraphs (a) and (b) of Decision No. 42277 are hereby amended to read as follows:

- "(a) Applicant shall file written acceptance of the certificate herein granted within 60 days from the effective date hereof.
- "(b) Within 240 days from the effective date hereof and on not less than 5 days' notice to the Commission and the public, the applicant shall establish the service herein authorized and comply with the provisions of General Orders Nos. 79, 80 and 93-A, by filing in triplicate, and concurrently making effective appropriate tariffs and time schedules."

In all other respects said Decision No. 42277 shall remain in full force and effect.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this 1st day of February, 1949.
