In this application, The Pacific Telephone and Telegraph Company asks the Commission for an order authorizing it to offer 328,920 common shares of its stock for subscription and sale, for cash at \$100 per share, to the holders of its preferred and common shares in the proportion of one common share for each five preferred and/or common shares standing in the name of each shareholder of record on the stock books of Applicant at the close of business on a date to be fixed hereafter, and upon receipt by Applicant of subscriptions properly executed and the necessary funds, to issue certificates for the appropriate number of shares; and authorizing Applicant to use the proceeds from the issue and sale of said common shares to reimburse its treasury in part because of moneys expended by Applicant for the acquisition of . property and for the construction, completion, extension and

improvement of facilities of The Pacific Telephone and Telegraph Company and its subsidiary, Bell Telephone Company of Nevada.

Applicant owns and operates directly a general telephone system in the States of California, Oregon, Washington and Idaho, and through said subsidiary, in the State of Nevada. Said telephone system is composed of local and long distance telephone lines and exchanges and the buildings, rights-of-way, franchises and equipment therefor.

Applicant has recently, through the amendment of its articles of incorporation, increased its authorized stock issue from 4,820,000 shares to 5,820,000 shares. The authorized stock is divided into 820,000 preferred shares and 5,000,000 common shares. Each share has a par value of \$100. The holders of the preferred shares are entitled to cumulative dividends at the rate of 6% per annum. The articles of incorporation provide that the unissued shares may be offered for subscription or sale or in exchange for property and be issued from time to time upon such terms and conditions as the board of directors may prescribe; but, when offered for subscription or sale for cash such shares shall be offered first to the corporation's preferred and common shareholders who shall have a preferential right to subscribe for or purchase the shares so offered, in proportion to the number of shares, preferred and/or common, held by them respectively.

As of October 31, 1948, Applicant had outstanding 320,000 shares (\$82,000,000 par value) of preferred stock and 3,324,602 shares (\$332,460,200 par value) of common stock. The testimony shows that American Telephone and Telegraph Company owns 640,957 preferred shares or 78.17% of such shares, and 3,003,584 common shares or 90.34% of such shares. Its combined preferred and common share ownership is 87.93% of all outstanding shares. Other share-

holders numbering more than 7,000, own 179,043 preferred shares or 21.83%, and 321,018 common shares or 9.66%. Their combined ownership of all outstanding shares is 12.07%.

The following statement shows Applicant's capitalization ratios as of October 31, 1948:

As of October 31, 1948, Applicant had no bank loans outstanding. The testimony shows that at the date of the hearing (January 17, 1949) on this application, its bank loans amounted to \$39,260,000. They bear interest at the rate of 2% per annum. It is estimated that by the end of March Applicant's bank loans will amount to from \$72,000,000 to \$75,000,000. If no securities are issued to pay such bank loans, they will have increased to about \$90,000,000 by the end of May. The loans have been made, or will be made, to pay construction expenses.

Applicant and its subsidiary report gross and net construction expenditures for 1948 and their estimate for 1949 as follows: ("000" omitted)

	: 1948 Actual : 1949 Estimates
<u>Item</u>	<u>: Gross : Net : Gross : Net</u>

*Excludes intercompany, interarea, and interstate transfers in amount of \$363.

In 1948 the actual construction expenditures of Bell Telephone Company of Nevada amounted to about \$2,093,000 and its

net construction expenditures to \$1,729,000. The corresponding figures for 1949 are estimated at \$1,700,000 and \$1,080,000, respectively. Its construction expenditures constitute a relatively small amount of the total.

The record shows that from October 31, 1922, to October 31, 1948, Applicant expended for the construction, completion, extension and improvement of its facilities and those of its subsidiary the sum of \$270,922,424.74, which sum it did not obtain from the issue of securities. The funds to make this expenditure were obtained from the following sources:

a.	Increase in reserves	\$249,871,892.30
ъ.	Increase in deferred credits over in- crease in deferred charges	6,373,663.56
c.	Decrease in Accounts 202, 204 and 278	1,825,841.86

Applicant asks permission to use stock proceeds, to the extent that such proceeds are sufficient therefor, to reimburse its treasury because of the above expenditures. After reimbursement of its treasury, Applicant will use as much of the stock proceeds as may be required to pay its bank loans, and will apply the remainder or an amount equivalent thereto to finance new construction.

Currently Applicant's common stock is selling for less than its par value. Applicant's comptroller is hopeful that by the

time⁽¹⁾ Applicant is in a position to offer the stock to its stockholders the market price will have increased and that the stockholders will subscribe for their pro rata shares. Applicant does not propose to issue any shares offered but for which it receives no subscriptions.

There is now pending before the Commission a formal proceeding covering the payments by Applicant to American Telephone and Telegraph Company for services rendered by the latter under the license contract, a matter referred to in Decision No. 41591, dated May 18, 1948. Applicant did not, for reasons of record in that pending proceeding, file the plan referred to in said Decision No. 41591 and called for by Decision No. 41416, dated April 6, 1948. The issue raised by Applicant's failure to file the plan will be decided on the record in the pending proceeding. In the meantime, Applicant should be authorized to issue the 828,920 common shares of stock.

I herewith submit the following form of Order.
