

Decision No. **42590**

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the application of)
 THE WESTERN PACIFIC RAILROAD COMPANY)
 for permission to relocate an existing) Application No. 29986
 spur track at grade across San Leandro)
 Street, in the City of Oakland, County)
 of Alameda, State of California.)

ORIGINAL

O R D E R

The Western Pacific Railroad Company is authorized to re-locate a spur track at grade across San Leandro Street in Oakland, Alameda County, identified as Crossing No. 4-12.7-C, to the location described in the application. Construction of said crossing shall be equal or superior to Standard No. 2 of G. O. No. 72, without super-elevation and of a width to conform to the paved width of the street, with tops of rails flush with the roadway and with grades of approach not exceeding one per cent. Applicant shall bear entire construction and maintenance expense.

Protection shall be by two Standard No. 8 crossing signals or preferably by two standard traffic signals. Said crossing signals or traffic signals shall be so controlled as to provide a stop indication only during the immediate approach to and passage of train movements over the crossings. Diagrams showing the method of control shall be filed with the Commission. The cost of installing said signals shall be borne fifty per cent by the City of Oakland and fifty per cent by applicant. Said signals shall be maintained at the expense of applicant.

Within thirty days after completion pursuant to this order, applicant shall so advise the Commission in writing. This authorization shall become void if not exercised within one year unless time

be extended or if above conditions are not complied with. Authoriza-
tion may be revoked or modified if public convenience, necessity,
or safety so require. The effective date of this order shall be
twenty days after the date hereof.

Dated at Los Angeles, California March 8th, 1949.
