Tassajara Hot Springs.)

Application No. 30324

O P I N I O N

Bruce W. Robb, by the above entitled application, seeks authority to abandon operations as a passenger stage corporation between Salinas and Tassajara Hot Springs and the intermediate point of Jamesburg.

The operative right was acquired by applicant Robb pursuant to Decision No. 25928, in Application No. 18849, having been created by Decision No. 13044, in Application No. 9677 and Decision No. 19740 in Application No. 14596. It authorized the transportation of passengers, baggage and express during the summer season of each year.

Service between Salinas and the Springs has been under suspension since July 7, 1943, pursuant to authorizations by the Commission, such authorizations having been on a season to season basis, the Commission pointing out to applicant that the service should be reestablished or steps would be taken to revoke the operative right. The present application states that applicant has made a survey of the public need for reestablishment of the service and has concluded that there is no prospective traffic now or in the foreseeable future. It appears, therefore, that the operative right should be revoked. This is not a matter which requires a public hearing.

O R D E R

Good cause appearing,

IT IS ORDERED:

(1) That the operative right created by the decisions referred to in the foregoing opinion is hereby revoked and annulled.

(2) That Bruce W. Robb shall, within 30 days after the effective date hereof, issue appropriate cancellation supplements to his effective tariffs and time tables applicable to operations between Salinas and Tassajara Hot Springs and intermediate points.

The effective date of this order shall be 20 days after the date hereof.

Dated at Los Angeles, California, this 1st
day of June, 1949.
