SUPPLEMENTAL OPINION AND ORDER

City Carriers' Tariff No. 6 - Highway Carriers' Tariff No. 7 provides zone rates for the transportation of asphaltic concrete and other materials in dump trucks between designated production areas and delivery zones in Los Angeles and Orange Counties. Mileage rates apply between points not covered by the zoning arrangements. Contractors Asphalt Products Co., Inc., a producer of asphaltic concrete and related materials, seeks enlargement of the zone rate system to cover transportation from its recently established facilities in Southgate to specified delivery zones in Los Angeles and Orange Counties. It urges that the order granting the sought relief be made effective five days after its issuance.

Petitioner points out that its Southgate plant is not within any of the existing production areas. It represents that the mileage rates applicable from the plant are higher than the zone rates applicable for comparable transportation from its competitors' production facilities. It claims that the proposed enlargement of the zone rate structure is necessary to provide non-discriminatory rates to delivery zones in competitive territory. In regard to the effective date of the sought order, petitioner asserts that newly developed marketing opportunities have arisen in the

zones involved and that it is essential that the adjusted rates be made operative with a minimum of delay.

Interested carriers and shippers have been notified of the proposed rate adjustments. These changes are not opposed.

Petitioner has shown that it is disadvantaged because zone rates are not available from its Southgate plant but are available from its competitors' facilities. The sought rate relief has been justified and will be granted.

A public hearing is not necessary.

Therefore, good cause appearing,

IT IS HEREBY ORDERED that City Carriers' Tariff No. 6 - Highway Carriers', Tariff No. 7 (Appendix "A" of Decision No. 32566, as amended, in Cases Nos. 4246 and 4434) be and it is hereby further amended by incorporating therein the revised pages attached hereto and by this reference made a part hereof, which pages are numbered as follows:
