BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the matter of the application of ) PACIFIC GAS /ND ELECTRIC COMPANY for ) an order of the Public Utilities Commission of the State of California granting to applicant a certificate of public convenience and necessity to exercise the right, privilege and franchise granted to applicant by Ordinance No. 461 of the Board of Supervisors of the COUNTY OF MARIN, State of California. (Gas)

ڊ

Application No. 30326

Frederick T. Searls and Ralph W. DuVal for applicant.

## <u>OPINION</u>

Pacific Gas and Electric Company by the above-entitled application, requests a certificate of public convenience and necessity authorizing it to exercise the rights and privileges conferred by Ordinance No. 461, adopted November 29, 1948, by the Board of Supervisors of the County of Marin, granting a franchise to construct, install, maintain, and use gas conveying and distribution facilities in the public streets of the county.

The term of the franchise is indeterminate, running until its surrender or abandonment or forfeiture for noncompliance or purchase by the state, county or other public corporations either voluntarily or by condemnation. Under the ordinance a fee is payable by the grantee to the county equivalent to 2% of the gross annual receipts arising from the use, operation or possession of the franchise. On the basis of the level of business during 1948, the estimated annual payment is \$4,336.95. The costs incurred by applicant in obtaining the franchise are stated to have been \$445.45 in connection with the publication and

obtaining of the county ordinance, and are exclusive of the \$50 filing foc. The applicant has stipulated that it, its successors or assigns will never claim before the Commission or before any court or public body any value for the aforesaid franchise in excess of the actual cost thereof.

Witness for the applicant testified that utility service was first furnished in Marin County in 1871, and in 1883 the San Rafael Gas Company was formed, being the first of a number of predecessors to the applicant in this area. The witness also stated that natural gas was introduced into the county in 1930. The utility had 127.28 miles of transmission gas main as of December 31, 1948 within the county, but its distribution facilities do not extend to all portions of the county.

At the time this franchise was granted by Ordinance No. 461, the utility stated it held franchises previously granted by Ordinances Nos. 161 and 185. Applicant's witness stated that it is obtaining this indeterminate franchise so that the term of its rights to render service in the unincorporated territory of Marin County may be extended beyond the maturity date of its long term financial borrowings. The utility does not plan to abandon any previous franchises.

A hearing in the instant application was held before Examiner Kimball at San Rafael on August 3, 1949, and no one appeared in opposition to the granting of this certificate. From the testimony received, it appears that no other person, firm or public or private corporation is rendering public utility gas service within the unincorporated area of Marin County.
