

A.21911 SJ

Decision No. 43294

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application ) Application No. 21911  
of Ira P. Lamb for permission to ) (13th Supplemental)  
charge other than minimum rates. )

SUPPLEMENTAL OPINION AND ORDER

Applicant transports property for General Mills, Inc.-  
Sperry Division. Within a defined southern California area he has  
been authorized to observe specified vehicle-unit rates which deviate  
from the established minimum rates. He now seeks an extension of  
the territorial application of the authority to include Kern County.

The verified supplemental application shows that General  
Mills is arranging to supply Kern County from its Los Angeles  
facilities; that only the eastern portion of this county is now  
included in the territorial application of the existing authority;  
that the handling of the additional traffic to the remainder of  
Kern County will tend to improve applicant's operating results; and  
that, unless the sought extension is granted, the shipper will  
perform the service with its own trucks.

It appears that the authorized bases of rates will be  
reasonable for the additional service and that the granting of the  
supplemental application is justified. A public hearing is not  
necessary.

Therefore, good cause appearing,

A.21911 SJ
