Docision No. <u>44454</u>

OPIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of C & M TRANSPORTATION a partnership consisting of O. N. CHESNUT and K. E. MeMURRAY, for a certificate of public convenience and necessity to operate an automotive freight service for the transportation of petroleum and petroleum products between all points in California (1): ) as a PETROLEUM IRREGULAR ROUTE CARRIER) based upon operations conducted on and after September 1, 1949, under radial ) highway common carrier permit, or, (2): in the alternative, as a HIGHWAY ) COMMON CARRIER, over described routes, including all intermediate points, and laterally therefrom within a radius of) fifty miles of said routes.

Application No. 31130

## OPINION

Applicants herein request a certificate of public convenience and necessity to operate as a petroleum irregular route carrier throughout the State for the transportation of petroleum and petroleum products in tank trucks and tank trailers, pursuant to the provisions of Section 50-3/4 of the Public Utilities Act, as amended by Statutes 1949, Chapter 1399.

The amendment referred to provides, among other things, that in the event a petroleum irregular route carrier was on September 1, 1949, and thereafter operating under a permit as a radial highway common carrier, and shall file an application within 180 days after the amendment takes effect, the Commission shall issue a certificate of public convenience and necessity without further proceedings, and such certificate shall authorize the carrier to engage in such operations as it was authorized to conduct on September 1, 1949.

Applicants allege in their verified application that on September 1, 1949, and continuously thereafter they were a petroleum irregular route carrier operating under a permit issued by this Commission as a radial highway common carrier. The application was filed within 180 days after said amendment became effective. By appropriate amendment the alternative request for a highway common carrier certificate has been deleted from the application.

A public hearing does not appear to be necessary.

Upon the facts set forth hereinabove, we find that public convenience and necessity require that O. N. Chesnut and K. E. McMurray, co-partners, doing business under the firm name and style of C. & M. Transportation, establish and operate services as a petroleum irregular route carrier to the extent set forth in the ensuing order.

O. N. Chesnut and K. E. McMurray are hereby placed upon notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate-fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, they extend to the holder a full or partial monopoly of a class of business over a particular route. This monopoly feature may be changed or destroyed at any time by the State, which is not in any respect limited to the number of rights which may be given.

## ORDER

Application as above entitled having been filed and the Commission having found that public convenience and necessity so require,

## IT IS OPDERED:

- (1) That a certificate of public convenience and necessity be and it is hereby granted to O. N. Chesnut and K. E. McMurray, co-partners, doing business under the firm name and style of C & M Transportation, authorizing establishment and operation of a service as a petroleum irregular route carrier, as defined in Section 2-3/4 of the Public Utilities Act, for the transportation of petroleum and petroleum products in tank trucks and tank trailers between all points and places in the State of California.
