Case No. 4808

SUPPLEMENTAL OPINION AND ORDER

City Carriers' Tariff No. 6 - Highway Carriers' Tariff No. 7 provides minimum rates, rules and regulations for the transportation of sand, gravel and other materials in dump trucks between designated production areas and delivery zones in Los Angeles County. Mileage rates are provided for movement between points not covered by the zoning arrangements. The mileage rates are generally higher than the zone rates.

By petition filed June 23, 1950, Lindauer Corporation seeks the reinstatement of zone rates from a production area formerly designated as Production Area "J". Zone rates from that area, along with zone rates from other production areas which were no longer used, were canceled by Decision No. 40724, 47 Cal.P.U.C. 447 (1947).

Petitioner represents that there is now an average monthly production of approximately 15,000 tons of sand and gravel at its plant in the area involved and that nearly all of this material is transported by for-hire dump trucks to nearby points in Los Angeles County. Petitioner seeks reestablishment of zone rates from Production Area "J" so that it will have rate treatment similar to that accorded other producers in the same general territory.

Interested parties have been notified of the filing of the petition. California Dump Truck Owners Association has supported and no one has opposed its being granted.

The sought reestablishment of Production Area "J" zone rates has been justified and will be granted.

A public hearing is not necessary.

Therefore, good cause appearing,

IT IS HEREBY ORDERED that City Carriers' Tariff No. 6 - Highway Carriers' Tariff No. 7 (Appendix "A" of Decision No. 32566, as amended, in Cases Nos. 4246 and 4434) be and it is hereby further amended by incorporating therein the revised pages attached hereto and by this reference made a part hereof, which pages are numbered as follows:
