No. 31904

O P I N I O N

Fialer's Limousines, Inc., applicant herein, is a corporation engaged in operating sedans, limousines and motor coaches between San Francisco, Oakland and other points for sight-seeing tours and for airline passengers and their baggage. In this application, it seeks authority to execute a chattel mortgage and to issue a note in the principal amount of \$22,320.

Applicant reports that in order to meet increased requirements and to improve its service, it purchased from The Flxible Company two new 1950 Flxible 29-passenger buses at a total cost of \$27,894.74. Applicant further reports that it used working cash to pay for the equipment and that in order to replace its cash, in part, it desires to borrow \$22,320 from Bank of America National Trust and Savings Association, said sum to be represented by a note repayable in 72 equal, consecutive monthly installments, plus interest at the rate of 4% per annum. The payment of the note will be secured by a chattel mortgage covering the two buses.

Applicant's financial statements on file with the Commission show its operating revenues at \$436,219 during 1948 and at

\$503,452 during 1949. They show net income, after all charges, at \$24,320 during 1948 and at \$32,263 during 1949. For the first nine months of 1950, applicant reports operating revenues of \$412,582<sup>(1)</sup> and net income of \$38,690. At the close of September, 1950, it reports cash and other current assets in the total amount of \$43,117, with current liabilities, including equipment obligations due within one year, in the total amount of \$77,814.

A review of the application and of the financial statements indicates that applicant has need for the funds to be obtained through the issue of its note to replenish its treasury and to improve its current position.
