O P I N I O N

By this application, authority is sought to change a loop operation in the business section of San Diego now used for applicant's Route G and Route F lines, as set forth in Decisions Nos. 37737 and 40900, respectively.

The loop is now operated from the intersection of Market Street and Sixth Avenue, along Market Street and Fourth Avenue, E Street and Sixth Avenue, continuing to point of beginning. Because of the congestion and other traffic conditions at the intersection of E Street and Sixth Avenue and the intersection of Market Street and Sixth Avenue, and because there is no signal at the latter intersection to protect the present turn onto Market Street from Sixth Avenue, it is deemed desirable by applicant, and it is alleged, also by the traffic officers of the San Diego Police Department, to reroute said loop operation along Fifth Avenue between E Street and Market Street.

As the proposed route change for said lines appears to be in the public interest, the Commission finds the public convenience and necessity require that the application be granted. No hearing is necessary.

ORDER

Application having been made therefor, the Commission being fully advised in the premises and having found that public convenience and necessity so require,
