Decision No. 45629

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

KATHIE ZAHN,

Complainant,

vs.

Case No. 5273

KEY SYSTEM,

Defendant.

ORDER OF DISMISSAL

The above complaint, filed March 19, 1951, alleges in substance that defendant proposes to curtail and change service on its "G" line, and requests that defendant be required to file a formal application requesting authorization before making such changes.

Defendant's answer points out that the Commission has rejected defendant's proposed time tables and changes affecting the "G" line and that, by letter dated March 20, 1951, defendant was instructed that it must file a formal application requesting authorization to make such changes.

Procedure under Rule 19.42 of General Order No. 98 having resulted in the requirement here sought by complainant, IT IS ORDERED that Case No. 5273 is hereby dismissed.

Dated, Los Angeles, California, this 8th day of May, 1951.
