Application No. 30638
 Third Supplemental

O P I N I O N

By Decision No. 43372, dated October 4, 1949, on Application No. 30638, Asbury Rapid Transit System was granted a certificate of public convenience and necessity authorizing the establishment and operation of a service as a passenger stage corporation, as defined in Section 2½ of the Public Utilities Act, for the transportation of passengers in the City of Burbank and in the community of North Hollywood. This authority was granted for a period of nine months in order to enable applicant and the City of Burbank to evaluate the service and, if desirable, to work out and make effective a franchise arrangement for the operation of this service.

By Decision No. 44305, dated September 19, 1950 on Application No. 30638, First Supplemental and by Decision No. 46056, dated August 7, 1951 in Application No. 30638, Second Supplemental, the authority granted by Decision No. 43372 was extended to and including November 1, 1951.

In the instant petition it is alleged that while applicant and the City of Burbank have studied this operation, the applicant now has pending before this Commission certain applications respecting its services and rates of fare. Accordingly the applicant desires to defer final decision with respect to the continuation of local

operations in the City of Burbank until after a decision has been made by this Commission in the pending rate application. Therefore, in order to provide this additional time and in the interim to provide the City of Burbank with service, it is requested that the authority granted in Decision No. 43372, supra, be extended to May 1, 1952.

After careful consideration of this matter, we are of the opinion that the request is in the public interest and should be granted. No public hearing is necessary.

O R D E R

Application as above entitled having been filed, the Commission being fully advised in the premises and hereby finding that public convenience and necessity so require,

IT IS ORDERED:

(1) That the authority granted to applicant in Decision No. 43372, dated October 4, 1949, on Application No. 30638 be extended to and including May 1, 1952, subject to all of the conditions contained in Decision No. 43372, supra.

(2) That applicant be, and it hereby is, authorized to deviate from the terms of General Order No. 79 to the extent necessary to enable it to supplement its tariff upon one day's notice to the Commission and to the public.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, October 30, 1951.
