

ORIGINAL

Decision No. AG 447

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the matter of the application of Gardens Water Corporation for permission to receive the physical assets of the Arnaz Mutual Water Co.

Application No. 32826

ORDER OF DISMISSAL

The above application requests authorization "to receive the physical assets" of Arnaz Mutual Water Company, alleging that the latter company, organized in 1928 to distribute water to a subdivision contiguous to the area served by applicant utility and now being unable to develop needed water sources, had asked applicant to take over its system and supply water in such contiguous subdivision. Commission records indicate that the Arnaz Company has not submitted to regulation nor been adjudged to be a utility. Applicant was advised by letter that review of the application indicated that the authorization requested is not required unless the Arnaz Company is operating as a public utility, in which event, the Arnaz Company should join in a transfer application. Applicant has requested that the application be dismissed, and good cause appearing,

IT IS ORDERED that Application No. 32826 is hereby dismissed without prejudice.

Dated, San Francisco, California, this 20th day of November, 1951.
