Application
No. 32894

O P I N I O N

This application shows that California-Pacific Utilities Company, hereinafter referred to as California-Pacific, on October 31, 1951, purchased all the outstanding shares of stock of Colusa County Telephone Company, hereinafter referred to as Colusa, pursuant to authorization granted by Decision No. 46273, dated October 8, 1951. (1) Colusa now intends to liquidate its affairs and in the present proceeding it has requested authorization to distribute and transfer all its assets and properties to California-Pacific in cancellation of its shares of stock.

The properties to be thus transferred include the public utility telephone system serving Colusa and vicinity. California-Pacific will succeed to all Colusa's assets and properties and will

(1) The basic purchase price paid by California-Pacific for such shares was the sum of \$175,000. A downward adjustment of \$599.69 was made as a result of an inventory of the materials and supplies, and a further adjustment will be made for changes in the net worth of Colusa between August 1, 1951, and October 31, 1951.

assume all its public utility duties and obligations and its outstanding indebtedness. Colusa's reported investments and its outstanding liabilities and net worth as of July 31, 1951, are shown in the following balance sheet:

Upon acquisition of Colusa's assets and properties, California-Pacific proposes to continue in effect the same rates now charged by Colusa for telephone service. The consolidation of the properties with those of California-Pacific under one ownership will eliminate the expense of maintaining two separate corporate structures and in our opinion will not be adverse to the public interest.

Accordingly, an order will be entered granting applicants' requests.

By Decision No. 44878, dated October 10, 1950, the Commission, among other things, authorized Colusa to enter on its books historical cost appraisal figures of \$404,666.39 as of December 31,

1948, together with related depreciation and amortization reserves of \$1,68,483.26. In receiving such authorization to restate its books, Colusa agreed, among other things, to review annually the accruals to its depreciation reserve, based upon the gross depreciable plant as reflected by its books, less the existing depreciation reserve, and to submit the results of these reviews annually to the Commission.

California-Pacific, in recording the acquisition of the assets and properties of Colusa, should transfer to its plant and depreciation reserve accounts the amounts on the books of Colusa. California-Pacific has informed the Commission that it will proceed to compile the data referred to showing the annual depreciation calculations with respect to the properties acquired from Colusa, and to submit such data to the Commission.

O R D E R

The Commission having considered the above entitled matter, and being of the opinion that a public hearing thereon is not necessary and that the application should be granted, as herein provided; therefore,

IT IS HEREBY ORDERED as follows:

1. Colusa County Telephone Company, after the effective date hereof and on or before December 31, 1951, may distribute and transfer to California-Pacific Utilities Company all its assets and properties in complete liquidation and cancellation of its outstanding shares of capital stock.
2. Upon such distribution and transfer of its assets and properties, Colusa County Telephone Company may cease furnishing and supplying telephone service in the territory in which it now is or

may be furnishing such service, and as of that date will stand relieved of its duties and functions as a public utility.

3. California-Pacific Utilities Company, after the effective date hereof and on or before December 31, 1951, may acquire and operate said assets and properties, and shall continue in effect the existing telephone rates and charges of Colusa County Telephone Company now on file with the Commission.

4. California-Pacific Utilities Company, in acquiring said assets and properties, shall assume all the public utility duties and obligations of Colusa County Telephone Company and its outstanding indebtedness.

5. The rates, rules and regulations of Colusa County Telephone Company now on file with the Commission shall be refiled within thirty (30) days after the date of transfer under the name of California-Pacific Utilities Company, in accordance with the procedure prescribed by General Order No. 96, or, in lieu of such refiling, California-Pacific Utilities Company may file a notice of adoption of said rates, rules and regulations. No increase in the present rates shall be made unless authorized by the Commission.

6. On or before March 31, 1952, California-Pacific Utilities Company shall file with the Commission a copy of each journal entry used to record on its books the acquisition of the assets and properties of Colusa County Telephone Company and the distribution to primary plant accounts.

7. On or before the date of transfer, Colusa County Telephone Company shall refund deposits, if any, which customers are entitled to have refunded. Any unrefunded deposits shall be transferred to and become the obligation for refund of California-Pacific Utilities Company.

8. The action taken herein shall not be construed to be a finding of the value of the assets and properties herein authorized to be transferred.

9. California-Pacific Utilities Company shall maintain its records in such form as to make information available regarding the investment in telephone plant in the Colusa exchange, together with the related depreciation reserve, and the operating revenues and expenses applicable to such plant.

10. The authority herein granted will become effective upon the date hereof.

Dated at San Francisco, California, this 4th day of December, 1951.
